BELIEVE IN NEXT

WE ARE BELIEVERS IN WHAT'S NEXT, WHAT'S POSSIBLE, AND WHAT'S WORTH EVERY DROP OF SWEAT.

Every fitness company calls itself innovative. But what does that mean? At Freemotion, being innovative means laying the groundwork that the rest follow. We are pioneers of commercial cardio, group and strength training solutions that elevate moods, minds and total fitness. For over 20 years, Freemotion has set the industry standard in fitness equipment and technology, introducing the world to cable-based strength training, the Incline Trainer and the first road-simulating bike.

Today, Freemotion is at the cutting-edge of innovative experiences that redefine the next generation of interactive, connected fitness. Our presence spans the globe, with a robust internal infrastructure and distribution network that provides our diverse customers with an extensive range of revolutionary fitness solutions and exceptional service. Freemotion is a subsidiary of iFIT Health & Fitness Inc., whose family of industry-leading brands, including NordicTrack, ProForm, Weider, and Sweat, make us part of the #1 health and fitness platform in the world.

Innovative is more than a word. It means driving conversations, setting trends— and it's what gets us out of bed every day. At Freemotion, we don't call ourselves innovators. We live innovation each and every day.

iFIT ➤

THE WORLD'S #1 HEALTH & FITNESS PLATFORM

Since 1977, iFIT Health & Fitness Inc. (fka, ICON Health & Fitness Inc.) has been fueled by a passion for innovation, growth and providing exercisers with solutions that elevate their fitness journey. iFIT is an integrated health and fitness platform that connects to proprietary software, interactive hardware and experiential content, offering unrivaled connected fitness experiences.

iFIT is a thriving community with more than six million total members in over 120 countries worldwide. Its hardware and technology are protected by over 400 issued and pending patents that can be found on the broadest range of modalities, including treadmills, indoor bikes, ellipticals, strength training equipment and more. Its brands, including iFIT, NordicTrack, ProForm, FreeMotion, Weider, and Sweat, are leaders in the fitness industry.

In its continuous pursuit to maintain and improve the human body, iFIT is a trailblazer, delivering transformative fitness experiences that change people's lives.

THE iFIT
EXPERIENCE

iFIT: FOR EVERYONE, EVERYWHERE

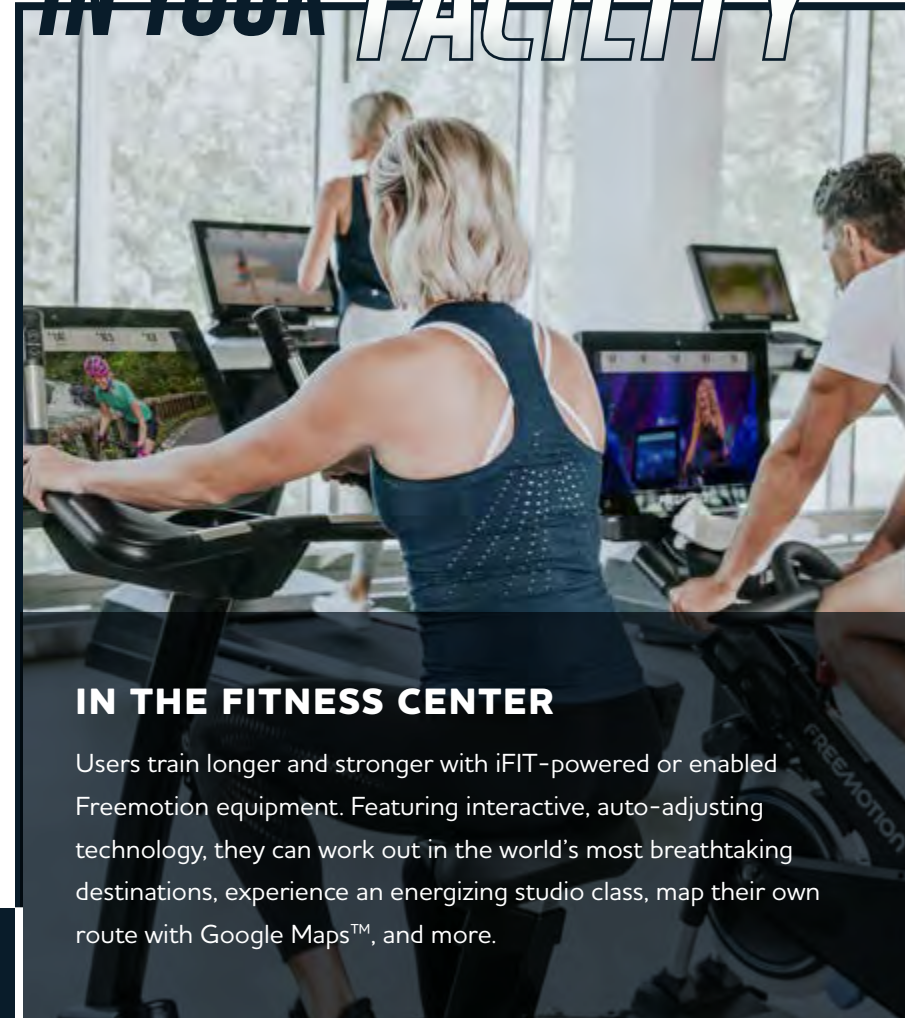

OMNICHANNEL SOLUTIONS FOR YOUR BUSINESS

Omnichannel is the future of our industry— and that future is already here. Consumers are more tech-savvy than ever before, and today's exercisers are no exception.

HOW WILL YOU MEET THEIR CHANGING NEEDS AND INCREASING EXPECTATIONS?

With iFIT interactive, connected fitness, omnichannel means more than just streaming videos. It means fully immersing exercisers in an entire ecosystem of health and wellness. Whether at your facility on Freemotion equipment, at home or on the go, you can create genuine omnichannel experiences, reducing attrition and increasing retention.

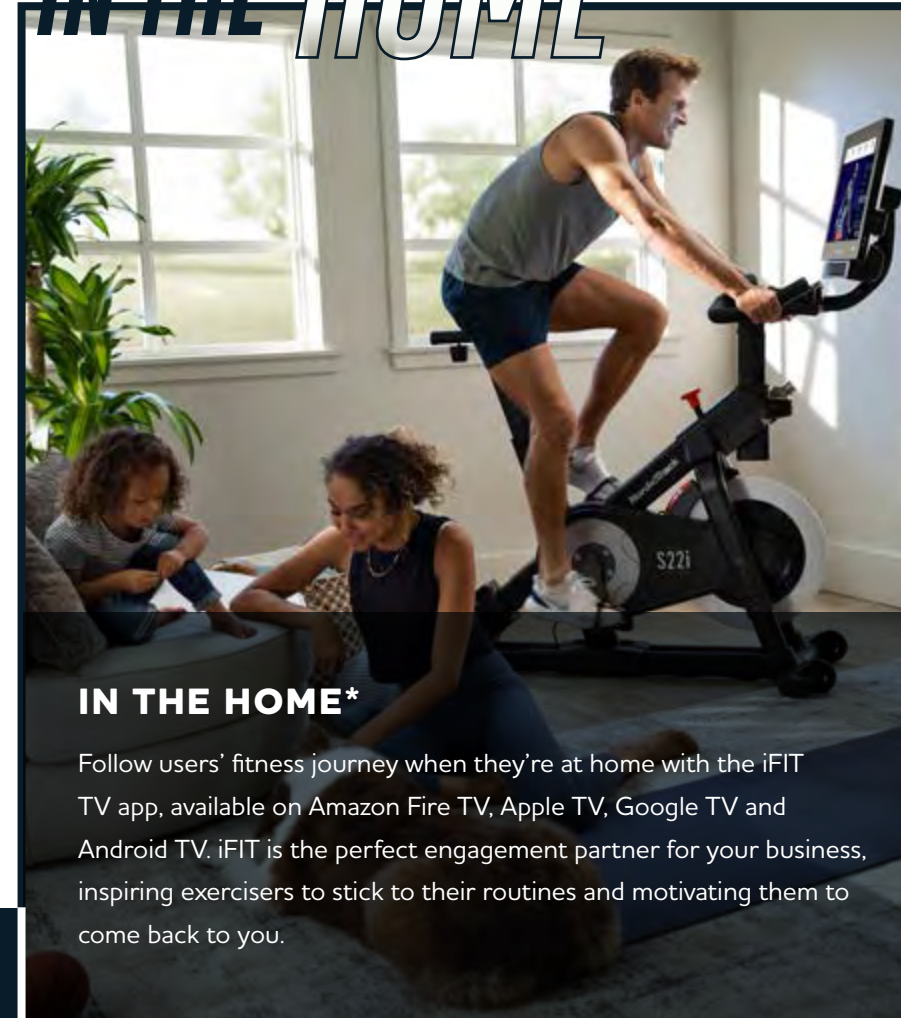

IN YOUR FACILITY

IN THE FITNESS CENTER

Users train longer and stronger with iFIT-powered or enabled Freemotion equipment. Featuring interactive, auto-adjusting technology, they can work out in the world's most breathtaking destinations, experience an energizing studio class, map their own route with Google Maps™, and more.

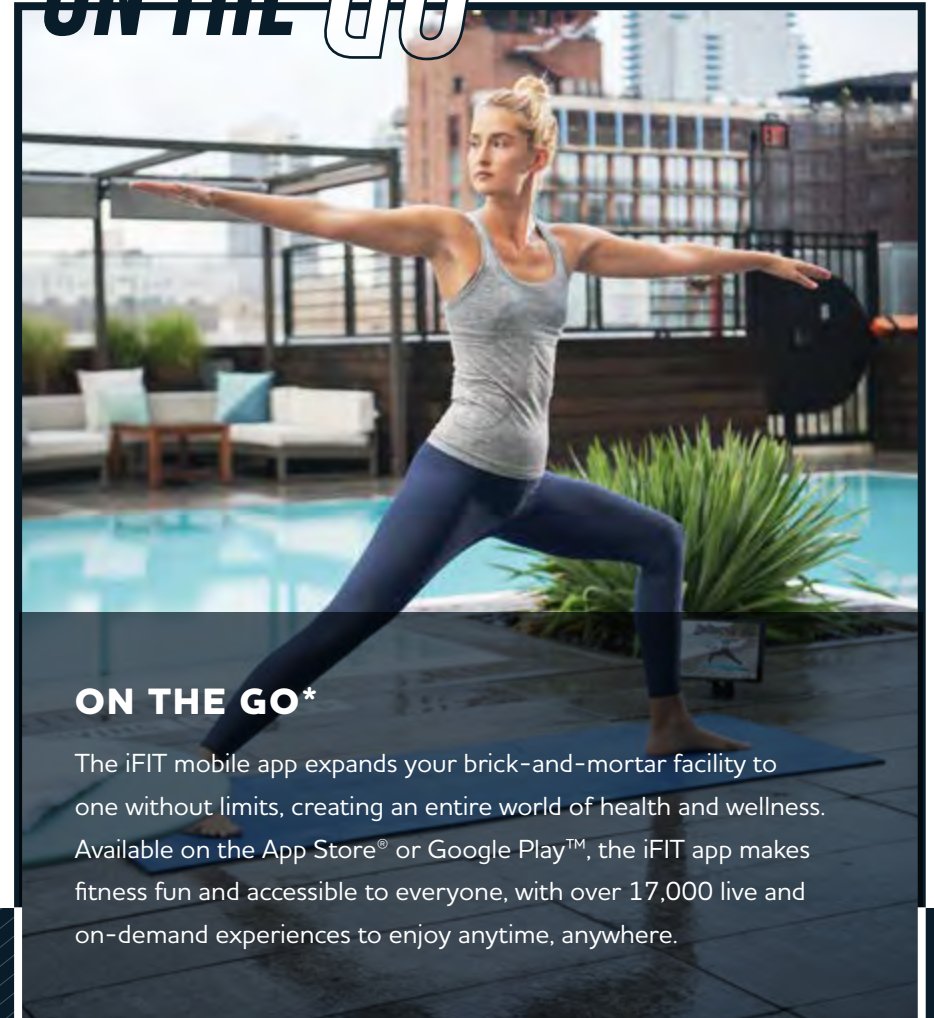

IN THE HOME

IN THE HOME*

Follow users' fitness journey when they're at home with the iFIT TV app, available on Amazon Fire TV, Apple TV, Google TV and Android TV. iFIT is the perfect engagement partner for your business, inspiring exercisers to stick to their routines and motivating them to come back to you.

ON THE GO

ON THE GO*

The iFIT mobile app expands your brick-and-mortar facility to one without limits, creating an entire world of health and wellness. Available on the App Store® or Google Play™, the iFIT app makes fitness fun and accessible to everyone, with over 17,000 live and on-demand experiences to enjoy anytime, anywhere.

THE iFIT EXPERIENCE

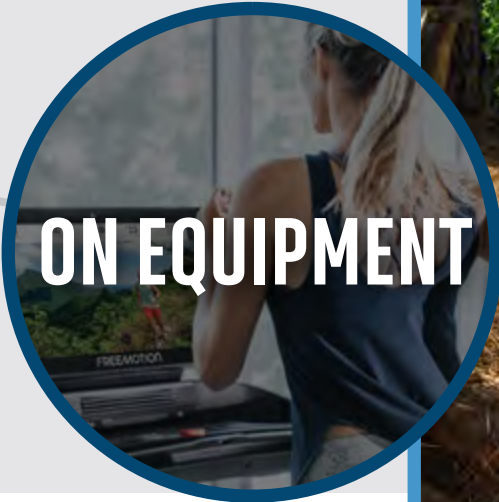

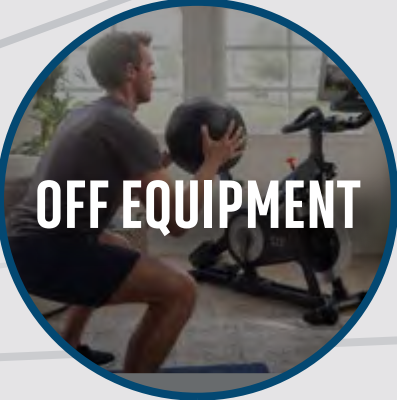

*Individual iFIT membership required.

NO MONTHLY OR ANNUAL FEES REQUIRED

Engaging, interactive and progressive, iFIT offers experiential content that keeps exercisers immersed and motivated, so you can focus on doing what you do best— making your facility the best it can be. With iFIT, it's easier than ever to offer unbeatable experiences they won't find anywhere else.

Better still, **no monthly or annual membership fees are required for you to offer iFIT content** on Freemotion 22 SERIES cardio machines.

THE iFIT ECOSYSTEM

*Individual iFIT membership required.

iFIT TRAINERS

EXPLORE THE WORLD WITH
GLOBAL WORKOUTS

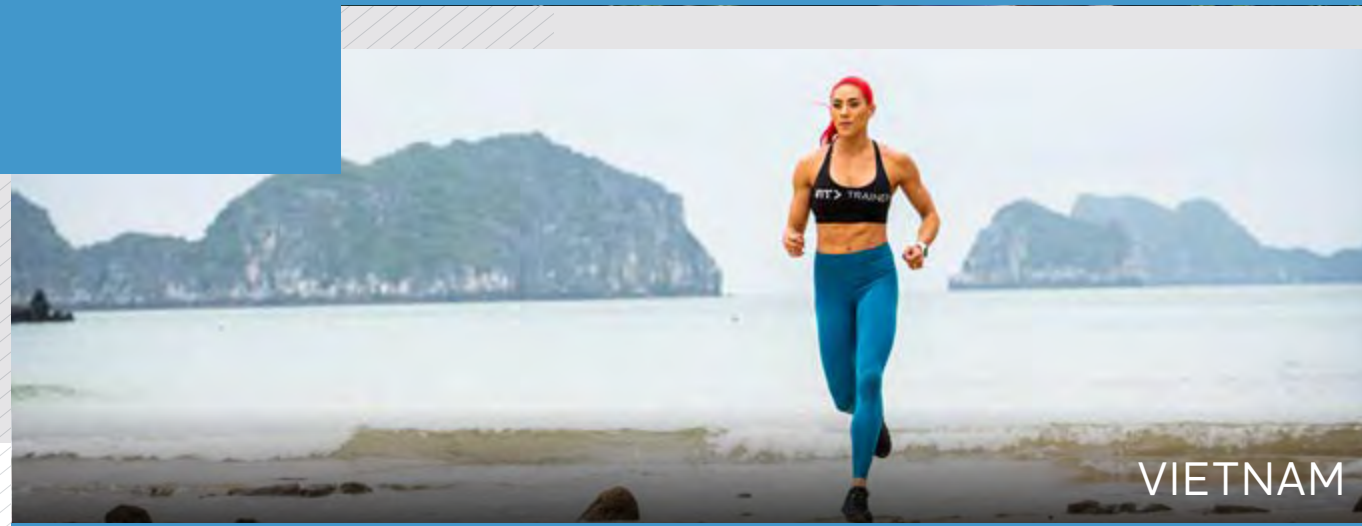

A VIRTUAL PASSPORT

iFIT offers a virtual passport to work out in thousands of the world's most breathtaking destinations. Users become globe-trotting adventurers from a guided walking tour of Ancient Egypt's iconic ruins to ascending Mount Fuji at sunset and so much more without leaving the cardio floor.

60+ COUNTRIES ON ALL 7 CONTINENTS

With iFIT, anyone can explore gorgeous beaches in French Polynesia, charming European villages and awe-inspiring mountain peaks with workouts shot on-location in over 60 countries across all seven continents.

ICONIC RACES LIVE AND ON-DEMAND

Users can virtually participate in iconic races, including the Boston Marathon, New York City Marathon and Tour de France, right from the cardio floor.

EXPERIENCE THE HYPE

Boring video workouts are officially canceled with iFIT. Exercisers can access thousands of high-energy on-demand studio workouts, delivering the excitement that will push them further. Supplementing your in-person classes with iFIT is the perfect combination that keeps everyone racing to return.

HIGH-ENERGY STUDIO WORKOUTS

THE iFIT EXPERIENCE

LIVE EVENTS WITH A GLOBAL COMMUNITY

Exercisers can work out with top iFIT trainers and millions of iFIT users in real-time with Live Events. Auto-adjusting technology on their machines seamlessly matches the trainer's instructions. They can also connect directly with their iFIT trainer by scanning a QR Code on a smart device and sending a text. Once the workout starts, trainers respond to questions and comments live.

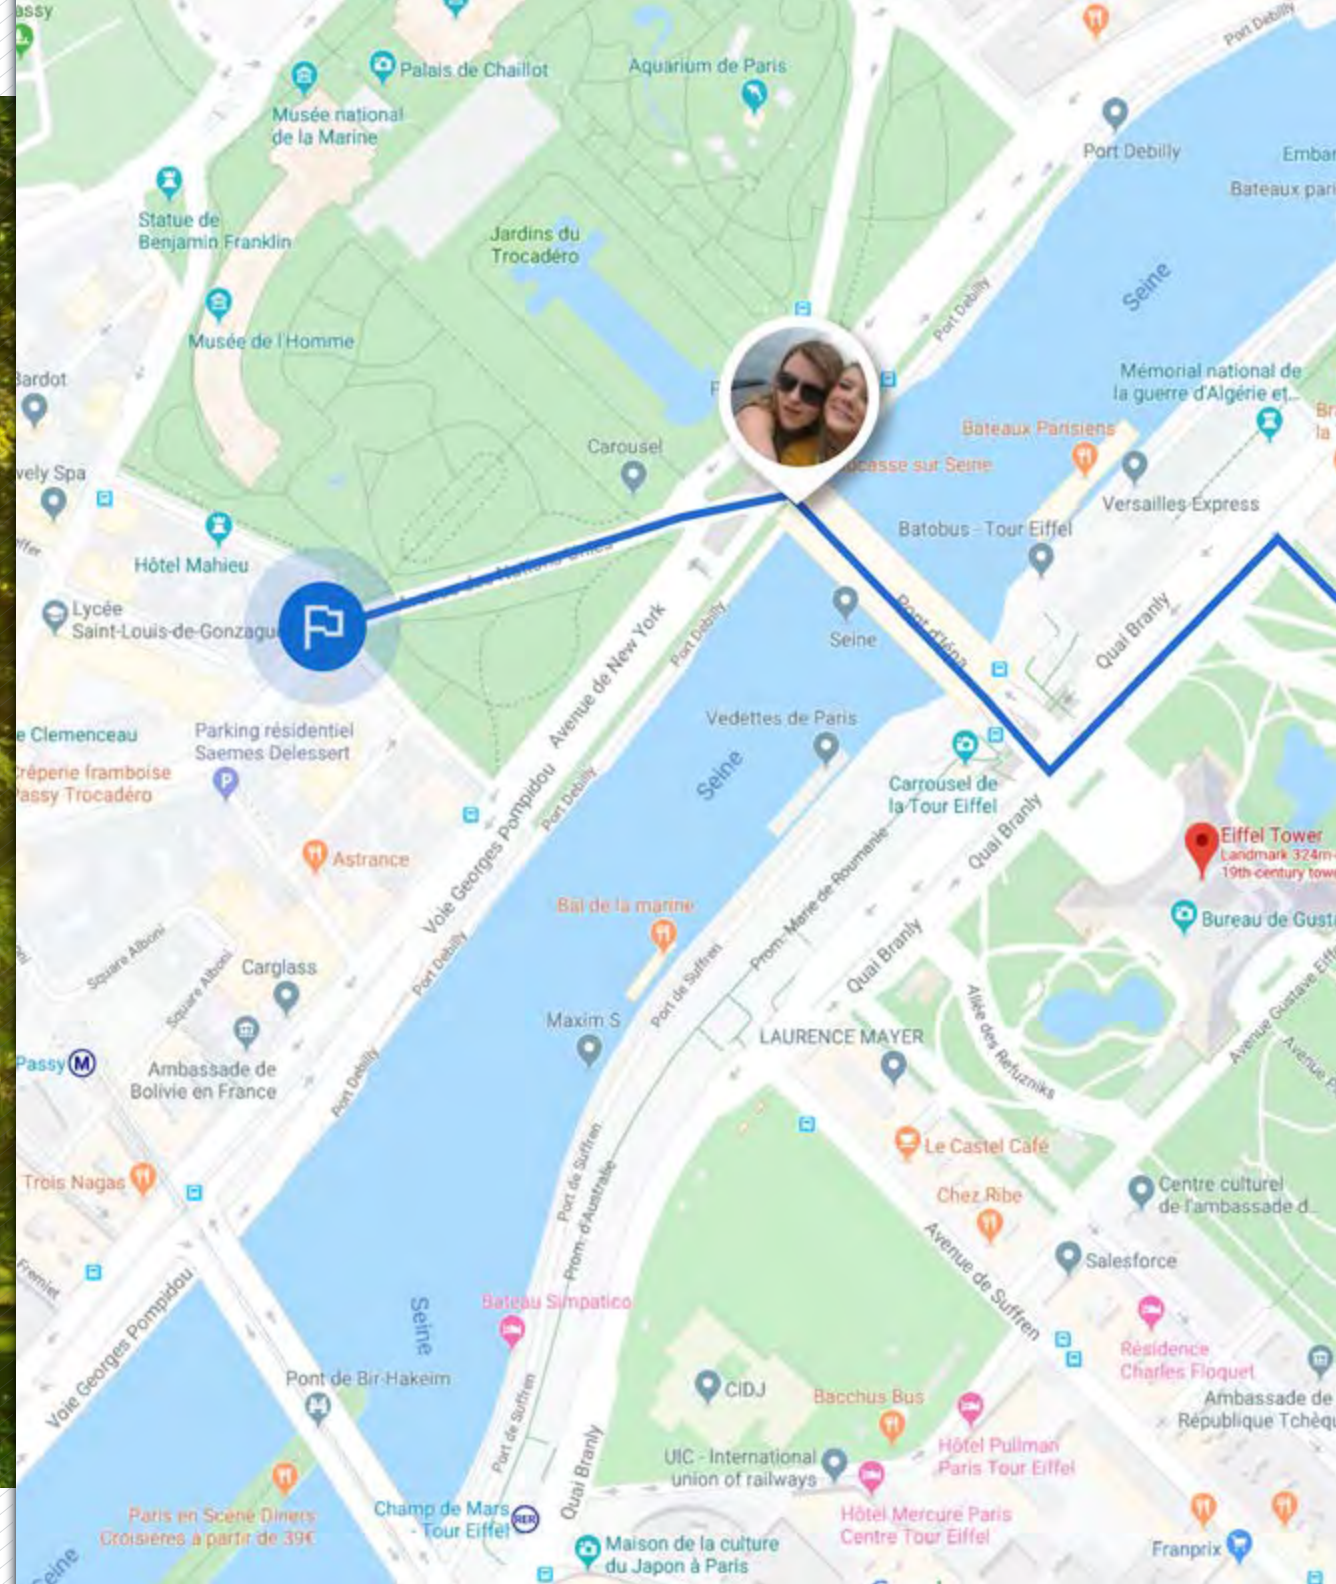

MOTIVATING *LIVE EVENTS*

WORKOUT ANYWHERE IN THE WORLD

iFIT users can chart their own course with Google Maps™ and virtually explore 10 million miles (16 million km) of mapped locations. Whether touring a trendy neighborhood, taking a trip down memory lane, or ticking off a destination on their bucket list, they'll never run out of new places to discover.

EIFFEL TOWER - PARIS, FRANCE

iFIT MIND

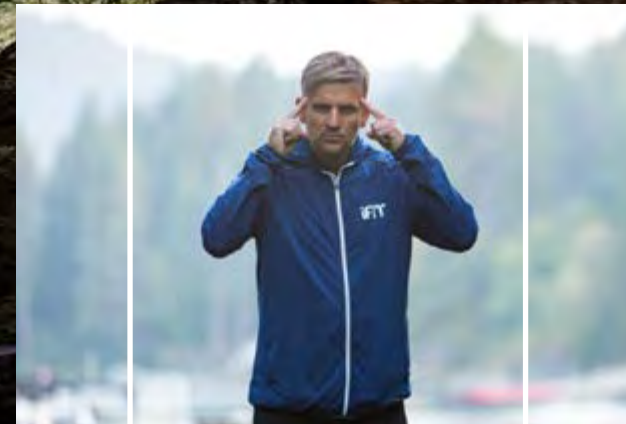

iFIT >

MAKING MEANINGFUL CHANGES WITH iFIT MIND

Offer transformative wellness experiences with iFIT Mind. Rooted in holistic, interactive, personalized training, iFIT Mind infuses a complete approach to total well-being. Users learn from experts in both physical and mental training with workouts filmed in blissful locations, empowering them to change their lives— body, mind and soul.

*A STRONG MIND IS JUST AS
IMPORTANT AS A STRONG BODY.*

MINDFULNESS

MEDITATION

MOVEMENT

NUTRITION

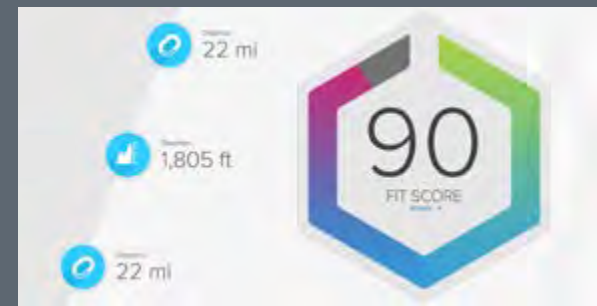

MAXIMIZING THE FITNESS JOURNEY

The age-old issue operators see the world over is how exercisers quickly lose interest if they don't get the right support to reach their goals. iFIT is more than award-winning, game-changing digital content. It's a hyper-personalized solution that integrates directly with your offering, showcasing the relationship between engagement, retention and the motivation people need to strive and thrive.

iFIT CHALLENGES

iFIT Challenges are progressive and take training to the next level. Each month, iFIT releases new challenges available on or off iFIT-powered and enabled machines, and is just what exercisers need to stay focused on their journey.

FIT SCORE*

Fit Score monitors the most essential workout stats, like workout frequency, calories burned, net calories and workout time, keeping iFIT members on track to reaching their goals.

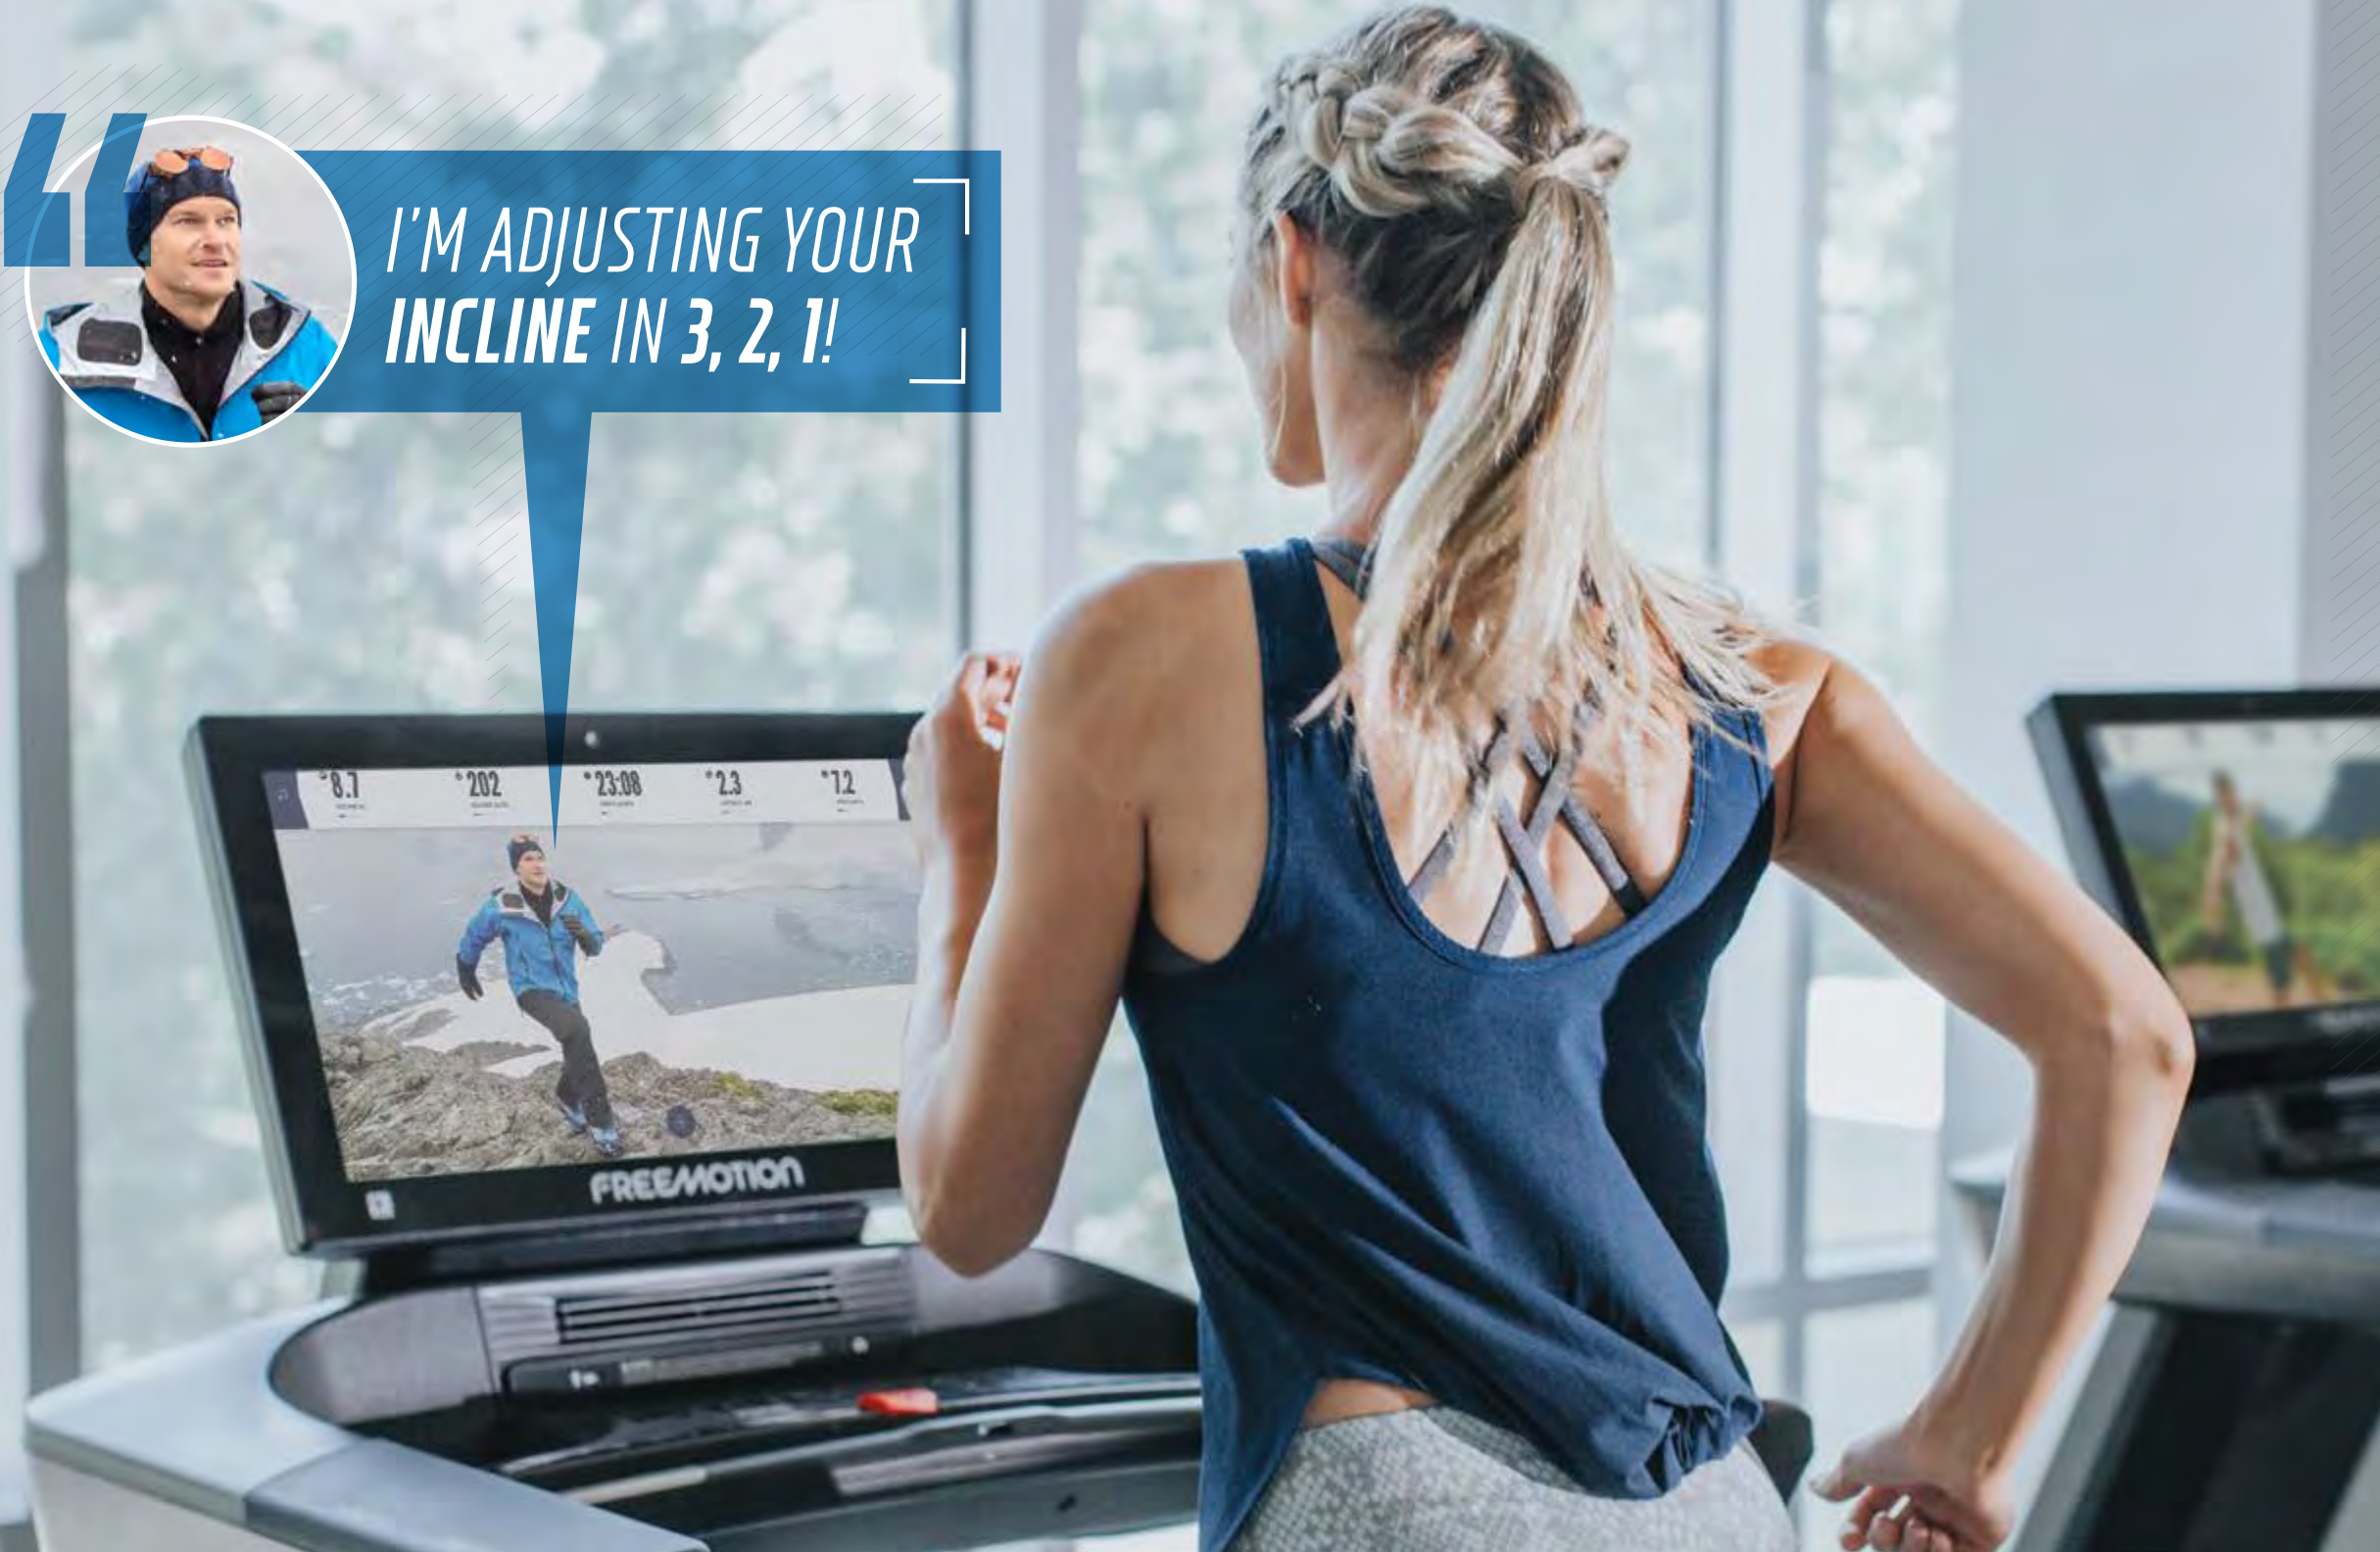

iFIT MILESTONES*

Each iFIT Milestone marks a significant workout feat— and there's no workout too big or small. Whenever iFIT members reach a Milestone, iFIT will send them an email with tips and tricks to stay motivated, along with exclusive rewards to the iFIT Shop.

*I'M ADJUSTING YOUR
INCLINE IN 3, 2, 1!*

MAKING WORKOUTS MORE PERSONAL

iFIT enhances exercisers' training by customizing their workouts to match their needs, preferences and goals. When connected to iFIT, Freemotion incline trainers, treadmills, ellipticals and indoor bikes make fitness interactive and personalized, ultimately maximizing their results.

AUTO-ADJUSTING TECHNOLOGY

With auto-adjusting technology, iFIT trainers can automatically adjust the machine's incline, decline, speed and/or resistance, creating an immersive, interactive, and true-to-life training experience.

ACTIVEPULSE™*

ActivePulse™ uses real-time heart rate data to provide instant insight into how effective the workout is and how the body responds to it. iFIT-powered cardio equipment will automatically speed up or slow down to maintain a heart rate "sweet spot."

SMARTADJUST™*

SmartAdjust™ scales workouts as iFIT members make speed or incline adjustments, so you can always follow your iFIT trainer— but at your own pace. Over time, SmartAdjust™ caters to their preferences and history while balancing workouts with the trainer's instructions.

*Individual iFIT membership required.

MUSIC

Research shows motivational music helps exercisers push through fatigue. They can amp up their routines and “get in the zone” with iFIT’s music stations. From pop and hip-hop to classic rock, dance and country, the only question is, “Which station will they choose?”

LANGUAGES

Users can enjoy their favorite iFIT workouts in multiple languages.

CLOSED CAPTIONING

iFIT provides interactive experiences that are also inclusive and accessible to everyone with closed captioning.

FREEMOTION EXPERIENCES

NOT ALL EXPERIENCES ARE EQUAL

Freemotion creates immersive, engaging and results-driven experiences that redefine the way the world thinks about cardio, strength and small group training, empowering all exercisers to do more, be more and achieve more. Because experiences are what truly delivers the ultimate engagement, retention and revenue.

What makes every Freemotion experience stand out from the crowd, benefitting exercisers and facilities? Let's take a closer look...

CARDIO

RE-IMAGINED CARDIO EXPERIENCES

It's no longer good enough for cardio equipment to simply look great and feel great. In an increasingly content and tech-driven world where consumers crave personalization, connectivity and a constant flow of fresh experiences, facilities must offer multi-layered engagement.

Freemotion cardio machines have been thoughtfully designed to deliver engaging, immersive and interactive experiences. Combining unrivaled engineering, technology and content, Freemotion provides facilities with solutions that elevate engagement and retention.

SMALL GROUP TRAINING

GAME-CHANGING SMALL GROUP TRAINING

Think you know small group training? Think again! Exercisers are hungry for new ways to speed up their workouts and achieve lasting results, all within a safe, fun and inspiring environment. So, Freemotion did what any great innovator would do— it ripped up the rulebook on this well-loved fitness format and created exciting experiences and revenue-boosting opportunities.

Change your game with engaging, community-building small group experiences from Freemotion, and say hello to increased retention.

INCLINE TRAINERS

THE ORIGINAL INCLINE TRAINER

Offer a world-class cardio experience with Incline Trainers from Freemotion, featuring an industry-leading 30% incline and -3% decline. Whether running or walking, training at an incline increases heart rate, muscle activation and calorie expenditure while reducing the impact that leads to injury. A Freemotion Incline Trainer is a “must-have” for your cardio floor if you want to deliver faster results and increase engagement.

At 27% incline and above, **glutes fire at 100%**,
hamstrings 73%, and calf muscles 90%*

*Based on a university study comparing posterior chain activation while walking on a flat surface compared to incline training.

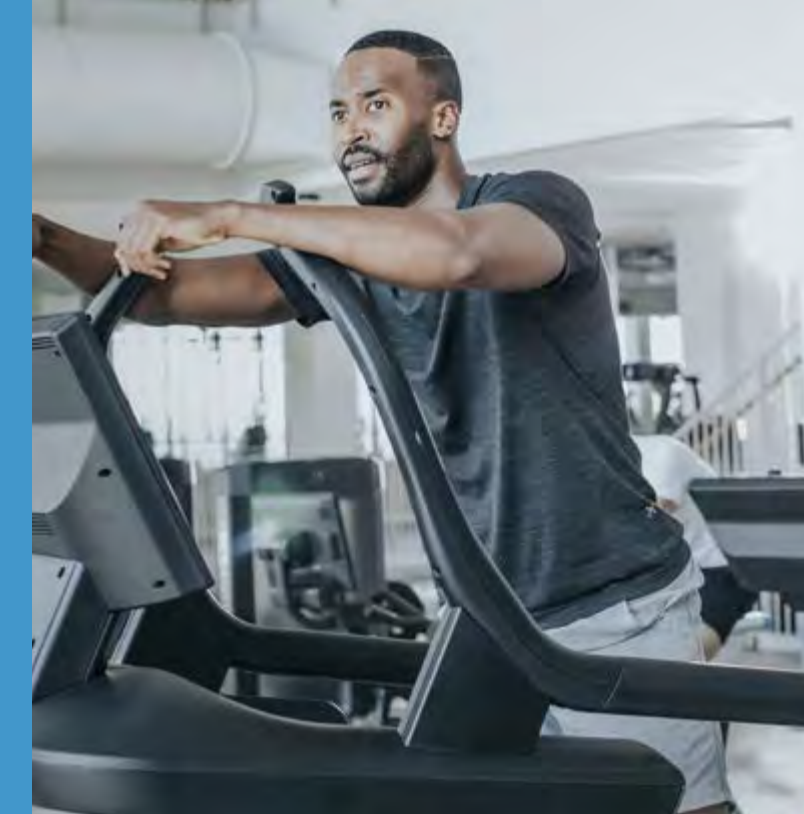

USERS BURN MORE CALORIES

Featuring an industry-leading +30% incline and a -3% decline users burn more fat calories on Freemotion Incline Trainers, with less perceived exertion. With the primary fuel source coming from fat, walking at a 30% incline burns 3.6 times more calories than walking on a flat surface. To deliver better, faster results in the safest way possible, look no further than the Incline Trainer!

ELEVATE RESULTS

Incline training improves fitness faster than working out on flat surfaces. Whether a user is running or walking, training at an incline increases heart rate, muscle activation and calorie expenditure, all with less perceived exertion while reducing the impact that leads to injury.

DELIVER AN EFFICIENT, FEEL GOOD WORKOUT

By increasing the incline and taking their workouts up a notch or two, users will achieve an elevated heart rate and increase the efficiency of their routines. With double the incline potential of a standard treadmill, they can get their hearts pumping faster and endorphins (those feel-good hormones) flowing more freely, no matter whether they're running or walking at an incline.

THE SCIENCE BEHIND INCLINE TRAINING

TWO WORKOUTS IN ONE

Exercisers can build and strengthen lower-body muscles while improving their cardiovascular fitness on Freemotion Incline Trainers. More effective than flat surface and stair training, walking or running at an incline increases muscle activation throughout the posterior chain and delivers an excellent workout, especially for the glutes.

EMPOWER EXERCISERS TO DEVELOP ECCENTRIC STRENGTH

Decline training teaches the body to decelerate and develop eccentric strength while helping to prevent falls in a safe environment. Exercisers can utilize decline training to better prepare for races or outdoor running while improving postural awareness.

ADDS VARIETY TO WORKOUTS

The unique rear motor design of the Freemotion line of Incline Trainers creates the perfect platform for dynamic agility training, like side shuffles, high knee skipping and carioca.

AT 27% INCLINE AND ABOVE, GLUTES FIRE AT 100%,
HAMSTRINGS 73%, AND CALF MUSCLES 90%. *

*Based on a university study comparing posterior chain activation while walking on a flat surface compared to incline training.

i22.9 INCLINE TRAINER

The iFIT-powered i22.9 Incline Trainer offers your members the ability to build muscle and burn calories faster with an engaging, immersive, and interactive workout experience.

AUTO-ADJUSTING TECHNOLOGY

In each interactive workout, the iFIT trainer remotely adjusts the incline, decline and/or speed of the i22.9 Incline Trainer to match the on-screen terrain.

MAKE EVERY SECOND COUNT

Users receive real-time data during their workouts thanks to built-in EKG grips, so they know when they're in the ideal heart-healthy zone. This feature is also compatible with ANT+ and Polar®.

SHIFT GEARS QUICKLY

By pressing two 1-STEP™ controls back-to-back— for example, pressing '2' and '5' will adjust the speed to 2.5 mph (4 km/h)— users can quickly reach their ideal speed.

POWER UP

A convenient USB port allows users to charge devices during their workouts –an essential feature for today's exercisers.

STUNNING HIGH-DEFINITION DISPLAY

The i22.9 Incline Trainer immerses users in the stunning imagery of workouts filmed in the world's most breathtaking destinations, or they can watch a favorite TV program on this high-definition 22-in (55 cm) capacitive touchscreen.

HIIT-FRIENDLY CARDIO SOLUTION

1-STEP™ controls lets users quickly adjust their speed, incline and/or decline with ease – great for HIIT training.

COOL WORKOUTS IN A BREEZE

Users can enjoy the feeling of staying cool throughout their workouts using a conveniently located, adjustable, three-speed fan, or they can select the AutoBreeze™ function for a variable flow that responds to their pace.

i10.9b INCLINE TRAINER

i10.9b INCLINE TRAINER

FMTK74218 | FMTK74218-INT

The best-selling Incline Trainer gets an upgrade with iFIT, the incline-matching technology that simulates routes from around the world. The i10.9b Incline Trainer is made for HIIT training with +30% incline and -3% decline, instant response 1-STEP™ controls and a simplified console. Users can connect their smart device and access thousands of workouts filmed in stunning locations around the world.

OPTIONAL UPGRADES*

» HD Personal TV 15.6 in (39.6 cm)

» TV Receiver 900/800 MHz

SMARTSERIES™

ENABLED BY iFIT®

ENABLED BY IFIT

iFIT wirelessly controls the speed, incline and/or decline when synced with the i10.9b Incline Trainer. This hands-free solution takes users across all seven continents for an interactive and immersive workout experience that's truly unparalleled.

+30% INCLINE TO -3% DECLINE

Muscle activation is the power behind incline training. Users burn more calories and enhance their performance through optimum muscle activation of the quads, calves and more.

1-STEP™ CONTROLS

Featuring 1-STEP™ controls, users can quickly adjust the speed, incline and/or decline with convenient console controls, making the i10.9b Incline Trainer the ideal solution for a HIIT workout or functional training.

TREADMILLS

NO ORDINARY TREAD

Deliver the best-in-class cardio experience with the Freemotion line of REFLEX™ Treadmills, the preferred treadmill of boutique studios around the world, including Orangetheory Fitness, BLAST and SWEAT1000. The proprietary cushioning deck reduces impact and enables a longer, stronger and healthier run to drive retention and enhance exercisers' results.

DURABLE, RESPONSIVE, AND IN A LEAGUE OF THEIR OWN

Freemotion treadmills are known for their ability to stand up to the toughest workouts, all day, every day. REFLEX™ cushioning responds under impact, creating a run like no other. 1-STEP™ controls allow users to push one button, one time, and get instant access to speed and incline. Everything about REFLEX™ Treadmills has been designed to give users a more effective, efficient and engaging experience.

A SAFER, HEALTHIER CARDIO EXPERIENCE

Easier on hips, knees, and ankles, the REFLEX™ proprietary cushioning deck is a complete game-changer, especially for endurance athletes and HIIT enthusiasts. It absorbs the joint and muscle impact that often leads to injury, enabling the user to run longer, stronger and with more confidence. Providing a 52% greater reduction in tibial shock compared to flat surface running,* the REFLEX™ deck allows users to walk, jog or run comfortably, helping them stay active, reach their goals and have fun in the process.

*Based on a Freemotion-commissioned university study comparing the impact of running on a Freemotion REFLEX™ series treadmill, a Life Fitness 95TS, a Precor TRM 835, and an in-ground treadmill with force plate.

*29% greater reduction in impact force
20.5% greater reduction in tibial shock
Compared to the competition**

t22.9 REFLEX™ TREADMILL

The best-in-class treadmill experience goes further with the t22.9 REFLEX™ Treadmill. Powered by iFIT, users can explore the world through thousands of coach-led workouts and auto-adjusting technology that delivers an immersive and interactive cardio experience.

*Based on a university study comparing posterior chain activation while walking on a flat surface compared to incline training.

NEXT-LEVEL DISPLAY. NEXT-LEVEL EXPERIENCE.

Whether users choose to follow an immersive iFIT workout filmed in stunning locations around the world or watch TV, the high-definition 22-in (55 cm) capacitive touchscreen will keep them engaged and raring to return. A next-level display for a next-level experience.

AUTO-ADJUSTING TECHNOLOGY

Each interactive workout allows the iFIT trainer to remotely adjust the incline or speed of the treadmill to mirror the on-screen content, creating a uniquely immersive, interactive, and engaging training experience.

IN THEIR ZONE MAKE EVERY SECOND COUNT

Users receive real-time data during their workouts thanks to built-in EKG grips, so they know when they're in the ideal heart-healthy zone. This feature is also compatible with ANT+ and Polar®.

SHIFT GEARS QUICKLY

By pressing two 1-STEP™ Controls back-to-back— for example, pressing '2' and '5' will adjust the speed to 2.5 mph (4 km/h)— users can quickly reach their ideal speed to make every second of their workout count - great for HIIT classes, too!

POWER UP

Charging devices during a workout is a must-have for today's exercisers. That's why REFLEX™ Treadmills feature a convenient USB port, ensuring users never run out of power to listen to their favorite tracks or programs.

t10.9b REFLEX™ TREADMILL

t10.9b REFLEX™ TREADMILL

FMTL70718 | FMTL70718-INT

The t10.9b REFLEX™ treadmill features a groundbreaking cushioning deck and 1-STEP™ controls for HIIT workouts. When synced to a smart device, the workout becomes interactive and automatically takes over the speed and incline of the machine. Users can choose from thousands of iFIT workouts filmed in breathtaking locations across the globe or in-studio, led by hundreds of the world's best athletes and trainers.

TOTAL BODY ELLIPTICALS

LOW-IMPACT CARDIO FOR THE ENTIRE BODY

ACCELERATE RESULTS

Deliver an engaging, total-body workout with this ergonomically-enhanced, low-impact cardio solution. With Freemotion Ellipticals, exercisers burn more calories faster with less joint strain and improved balance and mobility.

COMPLETE TRAINING

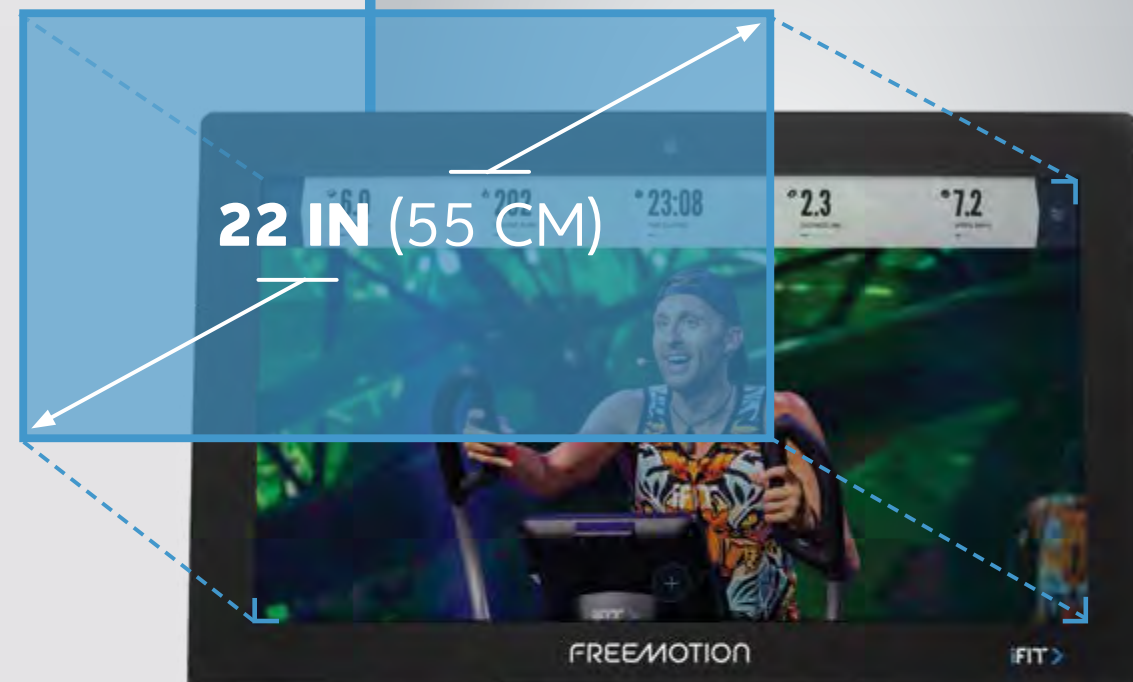

The Freemotion line of Ellipticals combines total-body training with smooth-flowing motions. Exercisers can cross-train to their fitness goals with a low-impact, joint-friendly workout.

e22.9 ELLIPTICAL

The e22.9 Elliptical is a low-impact cardio machine that unlocks a world of fitness and wellness for users, with access to thousands of engaging coach-led iFIT workouts filmed in-studio and in breathtaking destinations around the world.

HIGH-DEFINITION DISPLAY

Designed to immerse users in amazing workouts beautifully filmed around the world, the e22.9 Elliptical comes with a stunning 22-in (55 cm), high-definition, capacitive touchscreen.

ACCESSIBLE AND ENGAGING

Users can participate in the high-energy studio classes they've always wanted to attend but were uncomfortable joining because of equipment accessibility. With a 9.5 in (24.1 cm) step-up height and ergonomically engineered 20 in (50.8 cm) stride, the e22.9 Elliptical gives them the power to thrive.

LOW-IMPACT CARDIO SOLUTION

This low-impact cardio workout is easy on users' joints while engaging the muscles and heart with a stimulating and effective experience.

AUDIO-ENHANCED EXPERIENCE

Connecting via Bluetooth or headphone jack delivers an enhanced audio experience that deeply immerses users in their workouts.

ON-THE-FLY ADJUSTMENTS

Users can override or adapt the programming to meet their needs by quickly adjusting the elliptical's resistance with controls conveniently placed directly on the handlebars.

REAL-TIME TRACKING

With built-in EKG grips, users receive real-time data during their workouts, so they know when they're in the ideal heart-healthy zone. This feature is also compatible with ANT+ and Polar®.

e10.9b

TOTAL BODY ELLIPTICAL

e10.9b TOTAL BODY ELLIPTICAL

#FMEL84418

Low impact, all adventure. The e10.9b Elliptical comes with a simplified console that can be upgraded with the addition of a smart device. When users sync this iFIT-compatible machine, the elliptical will match the resistance to recreate the actual route on the screen.

OPTIONAL UPGRADES*

- » HD Personal TV 15.6 in (39.6 cm)
- » TV Receiver 900/800 MHz

ENABLED BY iFIT®

Upgrade the user experience from streamlined to tech-enhanced with the addition of a smart device.

TOTAL-BODY WORKOUT

With the help of the machine's upper-body workout arms, users get a total-body, low-impact workout.

KNOWLEDGE IS POWER

An easy-to-read, simplified console that tracks RPM/speed, distance/time, watts/calories, pace and heart rate means users are always in sync with their bodies and workouts.

INDOOR BIKE

COACHBIKE™: THE CARDIO EXPERIENCE REIMAGINED

The Freemotion CoachBike™ is an immersive cycling experience that keeps users coming back for more. Powered by iFIT — the world's only truly interactive connected fitness platform — the CoachBike™ takes indoor cycling to the next level. Users stay engaged as iFIT technology automatically adjusts the incline, decline and/or resistance to match the on-screen terrain of on-demand workouts filmed in the world's most breathtaking destinations.

b22.7 COACHBIKE #FMEX84821

COACHBIKE™

b22.7 COACHBIKE™

Engage and retain your members with the immersive cycling experience that keeps them coming back for more. With auto-adjusting technology that matches the incline and decline of the on-screen terrain, the CoachBike delivers an unrivaled immersive experience.

IMMERSIVE CYCLING EXPERIENCE

Users can cycle in stunning locations around the world as the CoachBike™ bike immersively inclines up to 20% during hill climbs and declines to -10% for breathtaking mountain descents.

SMOOTH AND EFFECTIVE WORKOUT

The maintenance-free Gates Carbon Drive System delivers the same quiet, smooth ride that a belt drive provides, with the strength and production of a chain.

MAXIMUM PERFORMANCE

Dual-sided pedals accommodate both high-performance SPD cleats and traditional fitness footwear to maximize power and performance results.

HIGH-DEFINITION DISPLAY

Users will be instantly immersed in the imagery of workouts filmed in destinations from around the globe, displayed on this stunning, high-definition 22-in (55 cm) capacitive touchscreen.

A COOL WORKOUT

Users stay cool throughout their workout with a 3-speed fan or AutoBreeze™ function that responds to their pace.

ON-THE-FLY ADJUSTMENTS

Users can override or adapt the programming to meet their needs by quickly adjusting the bike's resistance with controls conveniently placed directly on the handlebars.

AUDIO-ENHANCED EXPERIENCE

Users will be deeply immersed in their workout with an enhanced audio experience when connecting via Bluetooth or headphone jack.

ADVANCED WORKOUT METRICS

The CoachBike™ features real-time metrics that go beyond traditional feedback, leveraging heart rate, intensity, incline statistics and more.

RECUMBENT BIKE

PUTTING EXERCISERS IN THE COMFORT SEAT

BACK-FRIENDLY CARDIO SOLUTION

The Freemotion line of Recumbent Bikes enables exercisers to experience high-energy studio classes or immersive workouts filmed in the most stunning locations on Earth comfortably. These bikes feature an ergonomic seat and Step Thru™ design and are perfect for anyone who wants to reach their fitness goals.

FREEMOTION

r22.9 RECUMBENT BIKE

STRENGTH
EXPERIENCES

STRENGTH TRAINING:

GO BEYOND BUILDING MUSCLES

Freemotion offers a comprehensive and diverse range of world-class strength training experiences to complement any facility, user or goal. Supercharge your strength solutions with best-in-class Cable Strength Training, Machine Defined Training or Free Weight Training that embodies over 20 years of industry-leading innovation. This is Strength Training — redefined.

FUNCTIONAL TRAINING

A NATURAL WAY TO MOVE

Upgrade your strength offering with ground-breaking functional training equipment from Freemotion — the perfect intersection where movement meets strength. With the best-selling GENESIS™ and GENESIS™ DS lines, exercisers are sure to fall in love with functional training.

MACHINE-DEFINED TRAINING

ELEVATING THE STANDARD

You can maximize exercisers' results with the EPIC Selectorized line of machine-defined strength equipment. Comprising 19 machines that train different parts of the body, each piece has been expertly designed to inspire confidence by supporting the user's form and ensuring targeted muscles are being engaged. Requiring little supervision, the EPIC Selectorized line is a must-have for any weight room or strength training area.

FUNCTIONAL TRAINING

GENESIS™

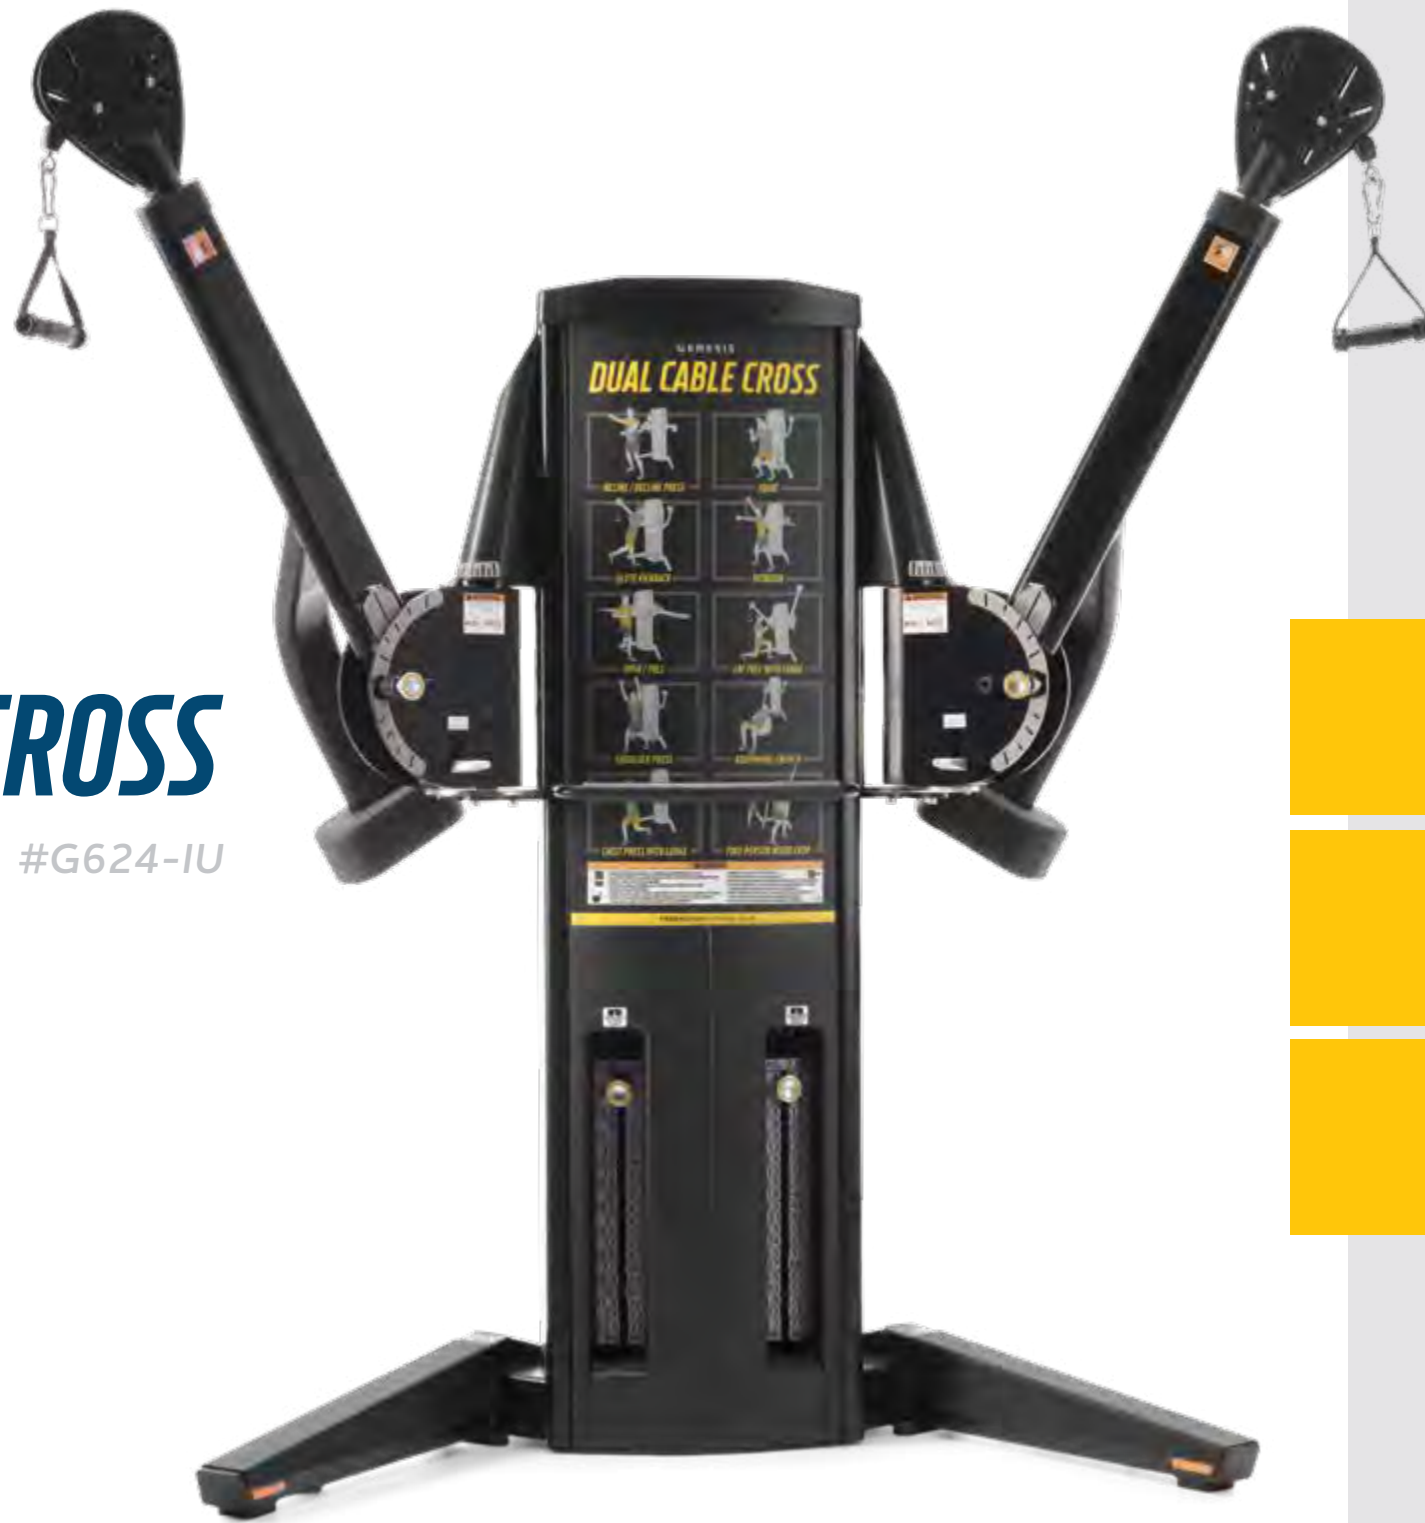

FREEDOM OF MOVEMENT

Users can train for all of life's movements with GENESIS™, the first full circuit of cable-based strength training that targets the entire body. Unlike other isolating strength-training equipment, GENESIS™ lets users dictate their own movements and instantly change their plane of motion. From seated stable positions to standing dynamic movement patterns, GENESIS™ allows users to progress their workouts with endless possibilities. The sleek design, durable construction and small footprint enable your facility to maximize floor space and success.

DUAL CABLE CROSS

INCLUSIVE USE #G624-IU

THE MACHINE WITH ITS OWN FANBASE!

Offering a large variety of functional exercise options with the simple and unique ability to precisely position angles with just one hand, the GENESIS Dual Cable Cross – Inclusive Use can simulate a multitude of movements from life and sport. Each arm rotates vertically and horizontally, independently of one another.

FREEDOM TO MOVE

The swivel pulley design combined with the extensive cable travel allows users a wide, fluid range of motion.

FINE-TUNE RANGE OF MOTION

Arms adjust both vertically and horizontally with just a single hand. This ability to precisely position the handles allows users of all fitness levels to mimic nearly any movement in life or sport.

MOVEMENT VARIETY

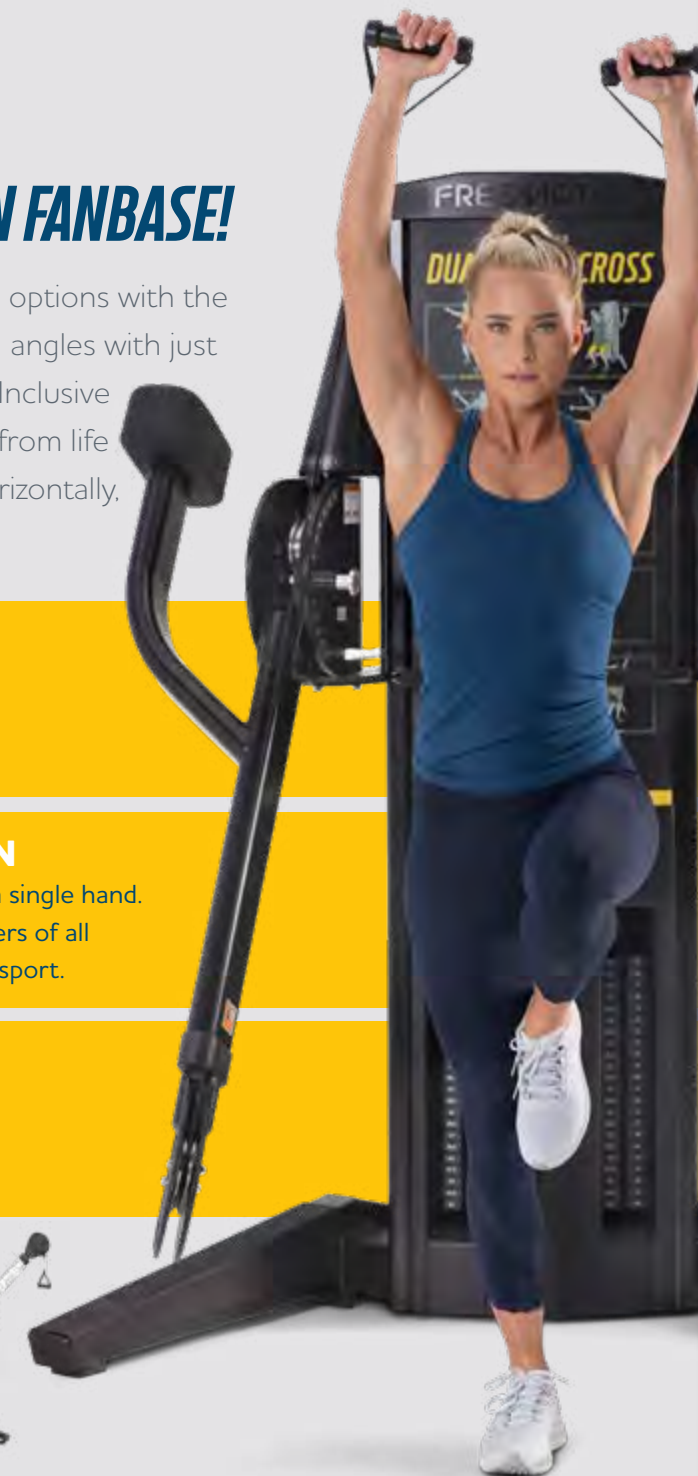

Handles move independently of each other for single and alternating exercises.

FLAT BLACK

PLATINUM SPARKLE

WHITE RIVER

INCLUSIVE USE

This Dual Cable Cross meets ASTM International standards for inclusive fitness equipment.

ONE-HANDED ARM ADJUSTMENTS

Our patent-pending design allows exercisers to adjust the machine's arms both horizontally and vertically with just one hand.

TACTILE ADJUSTMENT MARKINGS

While adjusting the machine, users easily find the exact position they want through the use of touch.

DESIGNED FOR USERS OF ALL LEVELS

Every detail of this machine has been thoughtfully designed to deliver a personalized strength workout.

GENESIS™

MULTI-PLANE CHEST #G600

The GENESIS™ Multi-Plane Chest delivers a wide range of motion and incredible function, allowing users to progress through their workouts from seated to standing and from one arm to two.

- » Independent Arm Movement
- » Never Lose FIST® Pin
- » Inclusive To All Users

GENESIS™

MULTI-PLANE SHOULDER #G601

Experience a better way to build shoulder definition with the GENESIS™ Multi-Plane Shoulder. When seated, users can pinpoint their efforts exactly where they want to see results. Standing behind the seat activates a total-body workout that improves stability and balance.

- » Swivel Pulleys
- » Never Lose FIST® Pin
- » Inclusive To All Users

GENESIS™

BICEPS #G602

The GENESIS™ Biceps features a dual-position seat for seated or standing positions to isolate the biceps or activate stabilizers. The patented Freemotion cable allows full flexion and extension, delivering smooth, consistent resistance for user-defined strength training.

- » Isolation to Integration
- » Never Lose FIST® Pin
- » Patented Cable Design

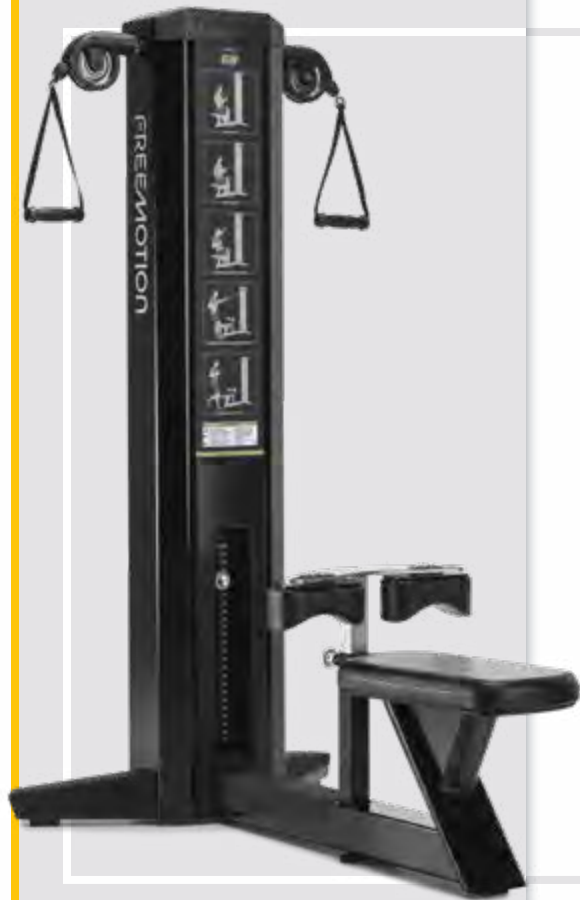

GENESIS™

TRICEPS #G603

The GENESIS™ Triceps offers unparalleled versatility to target the upper arms and build strength in the elbow joints. Users can progress through any number of triceps exercises, from seated supported to standing unsupported. The extensive cable travel delivers smooth, consistent resistance for user-defined strength training.

- » Independent Arm Movement
- » Swivel Pulleys
- » Extensive Cable Travel

GENESIS™

ROW #G604

The GENESIS™ Row is an essential tool for building strength to maintain good posture. Single or dual-arm movements open additional workout possibilities— chop, twist, press or punch. Users can turn a typical strength-training workout into an aerobic, calorie-crusher.

- » Independent Arm Movement
- » Swivel Pulleys
- » Adjustable Thigh Pads

GENESIS™

MULTI-PLANE CALF #G607

The GENESIS™ Multi-Plane Calf builds a strong foundation for the body. Users' feet and ankles operate in a 3D world, and the machine's multi-pivoting pedals move independently, mimicking real-life movements. The padded seat offers additional comfort, and the textured grip on the foot pedals helps secure foot placement.

- » Multi-Pivoting Pedals
- » Independently Moving Foot Pedals
- » Comfortable, Padded Seat

GENESIS™

SQUAT #G610

The GENESIS™ Squat ensures proper form without sacrificing resistance. Whether performing a single-leg, split or traditional squat, this machine defines the glutes and legs. The curved platform alleviates stress on the ankles, allowing users to press their backs firmly against the pad to reduce potential injuries.

- » Curved Platform
- » Advanced Linkage System
- » Contoured Shoulder Pads

GENESIS™

ABDOMINAL #G611

Users target abdominal muscles while building balance and overall core strength with the GENESIS™ Abdominal. Fewer adjustments create a more productive workout that targets upper, lower and oblique muscles for complete, customized results.

- » Swivel Pulleys
- » Functional, Vertical Design
- » Lumbar Support

GENESIS™

MULTI-PLANE LIFT #G612

The GENESIS™ Multi-Plane Lift helps train lower body muscles, glutes and lumbar spine to effectively work together. The low-profile platform is textured for secure foot placement when moving or stepping off. A never-lose FIST® pin and upgraded handles add to the luxury of this multi-use machine.

- » Independent Arm Movement
- » Never Lose FIST® Pin
- » Line-X® Coated Platform

GENESIS™

STEP #G614

The GENESIS™ Step builds balance and strength through user-defined movements. Ideal for anyone rehabbing injuries, training for explosive step-ups, or simply building strength to walk up the stairs, the Step accommodates a wide range of motion for compound exercises.

- » Swivel Pulleys
- » Adjustable Step Height
- » Line-X® Coated Step and Platform

GENESIS™

LAT #G620

Whether users want to build mass or functional strength, the GENESIS™ Lat engages the back, lower body and core without making seat adjustments. Users can sit and pull independent handles to create a completely customized workout.

- » Independent Arm Movement
- » Adjustable Thigh Pads
- » Swivel Pulleys

GENESIS™

CABLE COLUMN #G625

Versatile and portable, with tremendous cable travel and adjustable height, the GENESIS™ Cable Column will be the hardest working tool in your facility. Users can switch out the handles for an ankle cuff to build all-over leg strength.

- » Adjustable Pulley System
- » Locking Wheels
- » Inclusive To All Users

GENESIS™

MULTI-PULL ROTATION LOW #G626

The GENESIS™ Multi-Pull/Rotation Low has live-sliding pulleys that provide progressive resistance and muscle activation throughout the entire workout. Independent arm movements target the back, shoulders and arms.

- » Progressive Resistance
- » Swivel Pulleys
- » Independent Arm Movement

GENESIS™

MULTI-PULL ROTATION HIGH #G627

Even beginners can walk up to the GENESIS™ Multi-Pull/Rotation High and start working out with ease. This user-friendly machine also features an open design making it inclusive for all fitness abilities, including users in wheelchairs, so everyone can build upper body and core strength.

- » Progressive Resistance
- » Swivel Pulleys
- » Inclusive To All Users

GENESIS™

TOTAL QUAD HIP #G628

The GENESIS™ Total Quad/Hip trains the anterior leg muscles to develop stability and mobility. Live-sliding pulleys follow the path of movement with progressive resistance and optimum muscle activation.

- » Progressive Resistance
- » Swivel Pulleys
- » Dual Independent Tracks

GENESIS™

TOTAL GLUTE HAMSTRING #G629

Whether performing a straight-leg hip extension, a traditional curl or a dynamic kick-back, the GENESIS™ Total Glute/Hamstring trains muscles from hips to heels from a standing position. Multi-grip handles give users the option to isolate the upper body or assist with balance.

- » Progressive Resistance
- » Swivel Pulleys
- » Center Pulley Track

DUAL CABLE CROSS LITE #G424

The GENESIS™ Dual Cable Cross Lite boasts the same features of the original Dual Cable Cross on a smaller footprint and with lighter weight stacks. Ideal for rehab facilities, hotel fitness centers and rec centers, this hybrid strength training/aerobic machine burns calories and builds muscles, giving users the chance to double their results in half the time.

- » *Independently Rotating Arms*
- » *Dual Weight Stacks*
- » *Inclusive To All Users*

GENESIS DS™

INSTANT CIRCUIT TRAINING

Maximize your facility's space with GENESIS™ DS, the two-in-one strength training line delivered by Freemotion. With two workout stations on every GENESIS™ DS machine, small group sessions and circuit training take on a new meaning thanks to an innovative cable that delivers consistent, reliable resistance.

CHEST/SHOULDER #GD500

The GENESIS™ DS Chest/Shoulder has swiveling pulleys and a cable-based functional design. With options to train while seated or standing, users can progress through a variety of exercises to challenge stability. With a flip of the seat, they can quickly transition from a chest press to a squat to a front raise.

- » **Multiple Shoulder/Chest Press Options**
- » **Fold-Away Seat**
- » **Independent Arm Movement**

ABDOMINAL/BICEPS #GD501

Freemotion combined bicep training and ab work in one machine with the GENESIS™ DS Abdominal/Biceps. This cable-based machine targets the core, upper, lower and oblique abdominals, as well as the arms and shoulders.

- » **Multiple Abdominal Crunch/Bicep Curl Positions**
- » **Aluminum Swivel Pulleys**
- » **Independent Arm Movement**

LAT PULLDOWN/HIGH ROW #GD502

The GENESIS™ DS Lat Pulldown/High Row engages the arms, shoulders, back, and stabilizer muscles to improve overall core strength and balance. The pivoting seat can be quickly folded away for standing workout positions.

- » **Multiple Pulling Options**
- » **Adjustable Thigh Pad**
- » **Independent Arm Movement**

QUAD/HAMSTRING #GD503

Users unlock explosive leg power with the GENESIS™ DS Quad/Hamstring. Every movement utilizes cable training with a swivel pulley design to create exercise flexion and targeted muscle training.

- » **Multiple Anterior and Posterior Training Options**
- » **Large Line-X® Platform**
- » **Aluminum Swivel Pulleys**

LIFT/STEP #GD504

The GENESIS™ DS Lift/Step combines low pulling and rotational movements with step and lunge movements to engage a total-body workout. Users train their leg and back muscles, which improves strength for everyday lifting and stepping.

- » *Multiple Low Pulling/Stepping Options*
- » *Textured Line-X® Platform*
- » *Extensive Cable Travel*

MULTI-PULL PRESS #GD505

The GENESIS™ DS Multi-Pull Press strengthens forearms, shoulders, chest and neck. Cable-based training and interchangeable snap-clip pulleys give users the freedom to simulate many movement patterns from a seated or standing position.

- » *Multiple Mid/Low Pull Options*
- » *Adjustable Thigh Pad*
- » *Independent Arm Movement*

FREE WEIGHTS

GETTING STRONGER, ONE WORKOUT AT A TIME

When it comes to free weights, Freemotion has every base covered with an extensive selection of dumbbells, barbells, kettlebells and medicine balls, as well as benches, racks and plate-loaded equipment. With the EPIC Free Weights line, your facility can offer engaging and unlimited weight training experiences.

GO EPIC!

A successful workout begins with a solid foundation, and the EPIC Free Weights line is where fitness journeys begin. Every piece is built to last with durable, easy to clean vinyl, powder-coated steel and a design that always keeps convenience and comfort in mind.

FLAT BENCH #EF201

The EPIC Flat Bench was built for durability with heavy-duty 11-gauge steel. Electrostatically powder-coated for a sleek finish, it also has 3-in (7.6 cm) transport wheels, an easy-grip handle and bolt-down holes.

- » *Padded Vinyl Seat*
- » *Easy Portability*
- » *Industrial Construction*

ADJUSTABLE BENCH #EF203

The EPIC Adjustable Bench can fit everyone in your facility. The backrest tilts from -5 to 80 degrees, and the seat goes to a 30-degree incline. The efficient tripod frame design also features transport wheels and a handle for easy portability.

- » *Durable Seat and Backrest*
- » *Easy Portability*
- » *Industrial Construction*

FLAT/INCLINE LADDER BENCH #FMDY509062

The EPIC Flat/Incline Ladder Bench can fit everyone in your facility. The backrest tilts from 0 to 80 degrees, and the seat adjusts from 0 to 20 degrees. The front handle and transport wheels provide easy portability.

- » *Durable Seat and Backrest*
- » *Precise Seat Adjustments*
- » *Easy Portability*

UTILITY BENCH #EF204

This short-back bench makes it easier for users to do overhead presses. Built for comfort and safety, the EPIC Utility Bench has wear-resistant vinyl and high-density foam on the contoured backrest.

- » *Durable, Comfortable Seat and Backrest*
- » *Easy Portability*
- » *Industrial Construction*

FID BENCH #FMDY509063

Whether it's a decline press, overhead press or isolated crunches, the Freemotion FID Bench delivers the right fit for users' movements. The back pad, seat bottom and rolling shin pads provide comfortable support, and wheels make it easy to move.

- » *Precise Seat Adjustments*
- » *Rolling Shin Pads*
- » *Easy Portability*

PREACHER CURL #EF205

The biggest difference in the EPIC Preacher Curl is the slight slant to the arm padding that comfortably supports the user's upper body. The tripod design creates ultimate stability, and coated hooks can decrease the noise level in your facility.

- » *Sturdy Tripod Design*
- » *Contoured Arm Pad*
- » *Industrial Construction*

DIP CHIN/AB #EF207

Enjoy three workout stations in one machine. Curved handles create multiple grips for chin-up exercises while big padded elbow rests are angled to guide proper form.

- » *Curved Handles*
- » *Padded Armrests*
- » *Industrial Construction*

OLYMPIC INCLINE BENCH #EF214

The EPIC Olympic Incline Bench has a Y-shaped frame that gets the spotter closer to the lifter. The adjustable seat has thick foam and vinyl, and the inclined backrest creates the perfect foundation for upper chest presses.

- » *Y-Shaped Frame*
- » *Adjustable Seat*
- » *Industrial Construction*

ABDOMINAL BENCH #EF213

The EPIC Abdominal Bench offers targeted positioning for decline, flat and incline crunches and rotations. The leg pads adjust to comfortably fit users of varying heights. Made with 11-gauge steel construction, the bench is electrostatically powder-coated for a durable finish.

- » *Backrest Adjustment*
- » *Adjustable Leg Pads*
- » *Industrial Construction*

OLYMPIC DECLINE BENCH #EF215

The EPIC Olympic Decline Bench allows users to lift more comfortably and safely. The unique, Y-shaped frame allows the spotter close proximity to the lifter for added safety. The backrest is set at 15-degrees to target lower chest muscles. Leg pads adjust to 10 settings and have contoured, sliding shin pads to customize the fit.

- » *Y-Shaped Frame*
- » *Tripod Base Design*
- » *Industrial Construction*

OLYMPIC FLAT BENCH #EF202

The unique Y-shaped frame of the EPIC Olympic Flat Bench gets the spotter closer to the lifter for increased safety. Six plate holders positioned near the bar make loading and unloading weight easier. The extended bar racks provide wider than usual hand position options.

- » *Multiple Bar Racks*
- » *Integrated Weight Plate Holders*
- » *Industrial Construction*

OLYMPIC MILITARY PRESS #EF216

The open design, catch ramp and spotter stand are just three reasons why the EPIC Military Press will add functionality to your facility. Polyurethane-coated catch bars reduce noise and protect the press.

- » *Safety Catch Bars*
- » *Open Design*
- » *Industrial Construction*

SMITH MACHINE #EF211

By eliminating the crossbar, Freemotion created an easy walk-in/workout tool with the EPIC Smith Machine. Featuring an 82.5 in (209.5 cm) bar height and 51 in (129 cm) squatting and pressing range, this piece has built-in safety stops that secure the barbell in place.

- » *Walk-Through Design*
- » *Safety Stops*
- » *Industrial Construction*

PLATE-LOADED CALF #EF222

The EPIC Plate-Loaded Calf targets users' calf and foot muscles. The non-slip Line-X® coating stabilizes foot placement and optimizes muscle activation.

- » *Convenient Step-In Design*
- » *Non-Slip Line-X® Coating*
- » *Industrial Construction*

PLATE-LOADED SQUAT #EF217

The EPIC Plate-Loaded Squat features a textured Line-X® platform that helps ensure secure foot placement even under heavy loads and is curved to guide the user's stance.

- » *Contoured Platform*
- » *Comfortable Shoulder Pads*
- » *Industrial Construction*

45° BACK EXTENSION #EF206

Targeting the back, the split-angle foam pads on the EPIC 45° Back Extension create proper positioning to reduce pelvic pressure for users. Pop-pin height adjustments and secure plate placement make the workout as safe and beneficial as possible.

- » *Split-Angle Thigh Pads*
- » *Height Adjustments*
- » *Industrial Construction*

PLATE-LOADED LEG PRESS #EF218

The EPIC Plate Loaded Leg Press is a heavy-duty piece of equipment with a starting resistance of 90 lbs (40.8 kg) and a maximum load weight of 900 lbs (408 kg). The four-bar linkage allows the lower body to move in a more natural motion and helps reduce stress on the knees.

- » *Adjustable Seat*
- » *Dual-Sided Weight Locking Lever*
- » *Industrial Construction*

GLUTE-HAM DEVELOPER #FMDY709072

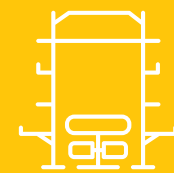

The Freemotion Glute-Ham Developer offers precise positioning and comfortable support while isolating the lower legs and hips. Users can feel the stability of the footplate and anti-tip design even during wide ranges of motion.

- » *Optimized for Comfort*
- » *Precise Adjustments*
- » *Sturdy Design*

RACKS

A ONE-OF-A-KIND WORKOUT EXPERIENCE

Smart storage meets incredible versatility with Freemotion Racks. Maximize your space and organize your weights to create the ultimate training ground in your facility.

PRO HALF RACK

#FMDY704003

The Pro Half Rack is everything facilities need for smart storage while offering users a better functional training experience. Laser-cut numbers and plastic liners on the bar storage give it a competitive edge.

FRAME CONTENTS

- » 3 x 3 in (7.6 x 7.6 cm) steel uprights.
- » Fiber-optic Laser-cut numbering system for exact attachment positioning
- » Multi-Grip Chin-up Bar
- » Two place bar storage
- » Band peg pair
- » 14 in (35.5 cm) Plate Storage Pegs (12)
- » UHMW plastic on J-hooks and safeties to prevent upright, bar and J-hook damage
- » Fiber-optic Laser-cut upright holes for fast and solid J-hook and safety Arm adjustments
- » Footplate anchor options for maximum rack stability
- » Carriage bolt hardware for a smooth and clean finish

PRO POWER RACK

#FMDY704004

The Pro Power Rack is designed for safety even during dynamic lifts. Its rugged cage construction is adjustable to set range of motion. Catch bars, bar hooks and uprights are coated to protect the machine for years of rigorous use.

FRAME CONTENTS

- » 3 x 3 in (7.6 x 7.6 cm) steel uprights.
- » Fiber-optic Laser-cut numbering system for exact attachment positioning
- » Multi-Grip Chin-up Bar
- » Two place bar storage
- » Band peg pair
- » 14 in (35.5 cm) Plate Storage Pegs (12)
- » UHMW plastic on J-hooks and safeties to prevent upright, bar and J-hook damage
- » Fiber-optic Laser-cut upright holes for fast and solid J-hook and safety Arm adjustments
- » Footplate anchor options for maximum rack stability
- » Carriage bolt hardware for a smooth and clean finish

OLYMPIC SQUAT RACK #EF212

Multiple bar racks are placed at an extended width, so wide handle positions are easy to perform on the EPIC Olympic Squat Rack. The solid steel, nickel-plated catch bars can safely contain a dropped bar.

- » **Safety Catch Bars**
- » **Multiple Bar Racks**
- » **Industrial Construction**

SINGLE TIER DUMBBELL RACK #EF208

Users can enjoy a safe, organized workout with the EPIC Single Tier Dumbbell Rack. Holding up to 10 standard dumbbells (up to 1,250 lbs - 566.9 kg), molded holders protect the weights and prevent rolling.

- » **Holds 10 Standard Dumbbells**
- » **Bolt-Down Holes**
- » **Industrial Construction**

TWIN TIER DUMBBELL RACK #EF209

Give members a safe, organized workout with the EPIC Twin Tier Dumbbell Rack. Holding up to 20 standard dumbbells (up to 2,500 lbs - 1,133 kg), molded holders protect the weights and prevent rolling.

- » **Holds 20 Standard Dumbbells**
- » **Bolt-Down Holes**
- » **Industrial Construction**

HEX DUMBBELL RACK (8 FT / 2.4 M) #FMDY509083

Keep up to 36 hex-shaped dumbbells (18 pairs) organized with the Hex Dumbbell Rack (8 ft / 2.4 m). Three levels of organization maximize square footage.

- » **Holds 36 Hex-Shaped Dumbbells**
- » **Flat Shelf For Versatile Positioning**
- » **Industrial Construction**

HEX DUMBBELL RACK (5 FT / 1.5 M) #FMDY109083

The Hex Dumbbell Rack (5 ft / 1.5 m) can hold up to 24 hex-shaped dumbbells (12 pairs) on a three-shelf rack that still leaves a small footprint.

- » Holds 24 Hex-Shaped Dumbbells
- » Flat Shelf For Versatile Positioning
- » Industrial Construction

SADDLE DUMBBELL RACK #FMDY509081

The Saddle Dumbbell Rack features a three-tier, cascading shelf designed to hold up to 36 dumbbells. The molded urethane holders accommodate dumbbells of nearly any shape.

- » Holds 36 Dumbbells
- » Fits Nearly Any Dumbbell Shape
- » Industrial Construction

BARBELL RACK #EF210

The A-frame design of the EPIC Barbell Rack takes up less space than other racks. It can hold up to 10 standard barbells (up to 1,250 lbs - 566 kg) and be bolted down for added stability.

- » Holds 10 Standard Barbells
- » A-Frame Design
- » Industrial Construction

WEIGHT PLATE & BAR STORAGE #EF219

The EPIC Weight Plate and Bar Storage holds two Olympic-sized straight and/or curl bars and has flared edges to secure bar placement. Able to store up to 1,270 lbs / 576 kg, this hardworking rack keeps everything organized.

- » Holds 2 Straight and/or Curl Bars
- » Stores Up To 1,270 Lbs / 576 Kg
- » Industrial Construction

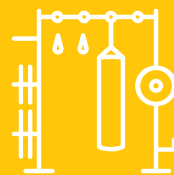

FITRIG™

FUN, FUNCTIONAL, FIT-DRIVEN

For over 20 years, Freemotion has led the functional training revolution with game-changing solutions. FITRIG™ ATTACHMENTS

Whether you want to outfit a new facility, or just upgrade your existing space, Freemotion offers an array of innovative accessories and attachments* for the FitRig™. From J-cups and safety catches for lifting and pegs for plate storage to dip bars, plyo steps and more, the options are near-endless to offer total-body experiences that will keep exercisers engaged and coming back for more.

*A list of compatible FitRigs™ for these attachments is available on **page 274** of the catalog.

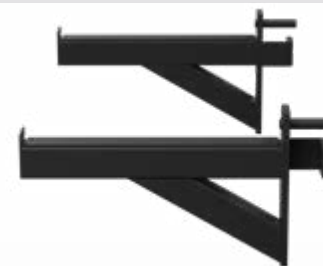

FMFR85020
DIP STATION

The Dip Station is a fixed frame with two bars that help users perform multiple exercises targeting the core, triceps, back, abs and chest.

FMFR85920
PLYO STEP

With a simple design and sturdy platform, the Plyo Step is an essential piece of equipment for users who want to get an effective plyometrics workout.

FMFR85120
PAIR SAFETY ARMS

When training alone at the facility, the Safety Arms can protect both the lifter and the bar itself.

FMFR86020
SHACKLE W/ THREADED CONNECTING LINK

The Shackle w/ Threaded Connecting Link is a versatile tool for connecting lifting slings, chains and fitness ropes for lifting and/or pulling exercises.

FMFR85220
PAIR TAKE OFF J-CUPS

J-Cups are an essential tool for barbell lifts, ensuring the user's performance will not be compromised with any slippage or movement.

FMFR86120
SINGLE BAR FRAME STORAGE

The Single Bar Frame Storage is a storage solution that will help keep your facility organized.

FMFR85320
PLATE STORAGE PEG - FIXED

The Plate Storage Peg - Fixed is designed to store weights efficiently while saving space that bulky weight racks take up.

FMFR86220
BALL TARGET W/ LOGO
(22 IN / 55.8 CM)

The Ball Target w/ Logo (22 in / 55.8 cm) attaches to your FitRig™ and is used for all-around, functional training exercises, from shoulders to legs.

FMFR85520
D-HANDLE

D-Handles are ideal for attaching fitness ropes, and can also be used for upper-body workouts.

FMFR86620
LANDMINE - BASIC

The Landmine - Basic accommodates all types of barbells and keeps them from constantly moving when rotating and being pushed or pulled.

FMFR86920
CANTILEVER ARM W/ SHACKLE & THREADED CONNECTING LINK
The Cantilever Arm w/ Shackle & Threaded Connecting Link provides support for punching bags or speed bags on your FitRig™.

FMFR88020
PULL UP BALL - FIXED
(3 IN / 7.6 CM)
The Pull Up Ball - Fixed (3 in / 7.6 cm) attaches to your FitRig™ to improve back and grip strength.

FMFR86420
BALL STORAGE TRAY
(4 FT / 1.2 M)
The Ball Storage Tray (4 ft / 1.2 m) is a compact solution that stores and secures exercise balls.

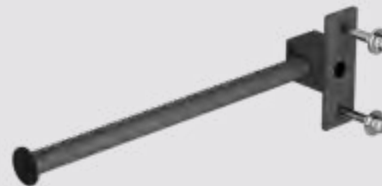

FMFR87020
CHIN UP BAR
The Chin Up Bar increases strength and mass in the back, biceps and shoulders.

FMFR88120
PULL UP BALL - FIXED
(4 IN / 10.16 CM)
The Pull Up Ball - Fixed (4 in / 10.2 cm) attaches to your FitRig™ to improve back and grip strength.

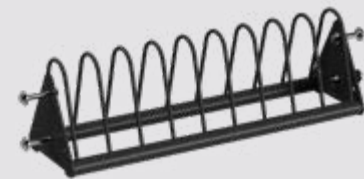

FMFR86520
KETTLEBELL STORAGE TRAY
(4 FT / 1.2 M)
The Kettlebell Storage Tray (4 ft / 1.2 m) is a compact solution that stores and secures kettlebells.

FMFR87220
BAND ANCHOR UPRIGHTS
Band Anchor Uprights are used to anchor resistance bands and strengthen the back, shoulders and biceps.

FMFR88620
BAR/HANDLE ACCESSORY STORAGE BRACKET
The Bar/Handle Accessory Storage Bracket accommodates longer bar attachments and provides storage for a wide variety of handle accessories.

FMFR86720
PLATE STORAGE TRAY
(4 FT / 1.2 M)
The Plate Storage Tray (4 ft / 1.2 m) is a compact solution that stores and secures weight plates.

FMFR87620
LANDMINE - DOUBLE KNUCKLE
The Landmine - Double Knuckle accommodates all types of barbells and allows for multi-plane movements and exercises.

FMFR85720
FLYING PULL UP EXTENSION
(4 FT / 1.2 M)
The Flying Pull Up Extension (4 ft / 1.2 m) is angled and attaches directly to your FitRig™ and adds diversity to users' routines.

FMFR87920
PLATE STORAGE TRAY - MOBILE
(4 FT / 1.2 M)
The Plate Storage Tray - Mobile (4 ft / 1.2 m) is a compact and portable solution that stores and secures weight plates.

FMFR87820
PLATE STORAGE PEG - TAKE OFF
The Plate Storage Peg - Take Off is designed to store weights efficiently while saving space that bulky weight racks take up.

FMFR86320
DUMBBELL STORAGE TRAY
(4 FT / 1.2 M)
The Dumbbell Storage Tray (4 ft / 1.2 m) is a compact solution that stores and secures dumbbells.

FMFR88320
MULTIPURPOSE FLAT SHELF
(4 FT / 1.2 M)
The Multipurpose Flat Shelf (4 ft / 1.2 m) stores your FitRig™ accessories and exercise equipment.

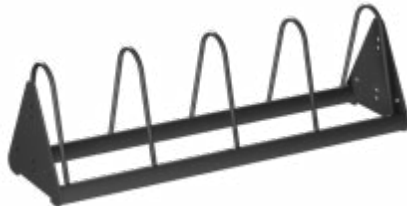

FMFR88520
STABILITY BALL STORAGE TRAY
(4 FT / 1.2 M)
The Stability Ball Storage Tray (4 ft / 1.2 m) is a compact solution that stores and secures stability balls.

FMFR85620
DUMBBELL STORAGE TRAY
(6 FT / 1.8 M)
The Freemotion FitRig™ Dumbbell Storage Tray (6 ft / 1.8 m) is attached to your FitRig™ and securely stores dumbbells.

FMFR88820
HALF BALL BALANCE TRAINER TRAY
(6 FT / 1.8 M)
The Half Ball Balance Trainer Tray (6 ft / 1.8 m) is bigger to store and secure half balls.

FMFR88920
HALF BALL BALANCE TRAINER TRAY
(4 FT / 1.2 M)
The Half Ball Balance Trainer Tray (4 ft / 1.2 m) is a compact solution that stores and secures half balls.

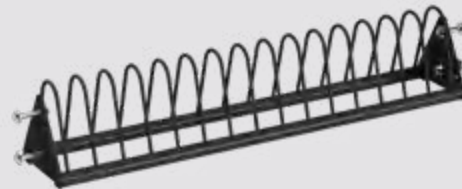

FMFR85820
KETTLEBELL STORAGE TRAY
(6 FT / 1.8 M)
The Freemotion FitRig™ Kettlebell Storage Tray (6 ft / 1.8 m) is attached to your FitRig™ and securely stores kettlebells.

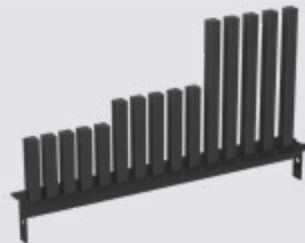

FMFR89020
MULTIPURPOSE STORAGE BAR
(6 FT / 1.8 M)
The Multipurpose Storage Bar (6 ft / 1.8 m) is bigger to store and secure straps, resistance bands and other FitRig™ accessories.

FMFR89120
MULTIPURPOSE STORAGE BAR
(4 FT / 1.2 M)
The Multipurpose Storage Bar (4 ft / 1.2 m) is a compact solution that stores and secures straps, resistance bands and other FitRig™ accessories.

FMFR86820
PLATE STORAGE TRAY
(6 FT / 1.8 M)
The Freemotion FitRig™ Plate Storage Tray (6 ft / 1.8 m) is attached to your FitRig™ and securely stores weight plates.

FMFR89220
VERTICAL DUMBBELL STORAGE TRAY
(6 FT / 1.8 M)
The Vertical Dumbbell Storage Tray (6 ft / 1.8 m) is a bigger, upright solution that stores and secures dumbbells.

FMFR89320
VERTICAL DUMBBELL STORAGE TRAY
(4 FT / 1.2 M)
The Vertical Dumbbell Storage Tray (4 ft / 1.2 m) is an upright solution that stores and secures dumbbells.

FMFR88220
MULTIPURPOSE FLAT SHELF
(6 FT / 1.8 M)
The Multipurpose Flat Shelf (6 ft / 1.8 m) is bigger to store your FitRig™ accessories and exercise equipment.

FM RIP19
RIP:60 TOTAL BODY SUSPENSION
Rip:60 is a complete suspension training system that is adjustable, compact and combines cardio with strength training for users of all fitness levels.

FMFR85420
BALL STORAGE TRAY
(6 FT / 1.8 M)
The Freemotion FitRig™ Ball Storage Tray (6 ft / 1.8 m) is attached to your FitRig™ and securely stores exercise balls.

FMFR88420
STABILITY BALL STORAGE TRAY
(6 FT / 1.8 M)
The Stability Ball Storage Tray (6 ft / 1.8 m) is bigger to store and secure stability balls.

RIP:60 CLUB SUSPENSION TRAINER #FMRIP19

SUSPENDED ROTATION | DURABLE NYLON STRAPS

The Freemotion Rip:60™ CLUB SUSPENSION TRAINER is a complete and compact training system that works for all fitness levels. The ideal companion for any Freemotion FitRig™, RIP:60 CLUB SUSPENSION TRAINER create targeted, total body workouts that combine cardio and strength training. The easy attachments and adjustments take minutes to set-up, while the straps themselves stand up to continuous use and a wide range of weight.

FEATURES

SUSPENDED ROTATION

The secret to the Rip:60™ CLUB SUSPENSION TRAINER is suspended rotation. Users' bodies are forced to stabilize and balance throughout the workout to engage more muscles and constantly engage the core with every move.

OPTIMIZATION ZONE

Each workout offers a beginner, intermediate and advanced position. Extreme body angles create a more intense, challenging workout, while smaller angles make the workout easier.

SIMPLE, DURABLE DESIGN

The unique design of the Rip:60™ CLUB SUSPENSION TRAINER is perfect for users of all levels. It adjusts with every movement, so everyone gets the workout they want. It's made of aircraft-quality aluminum and heavy-duty nylon with comfortable hand and ankle straps capable of holding up to 600 lbs (272 kg).

INCLUDED ACCESSORIES

- » Durable nylon suspension trainer
- » 2 ankle straps with sliding handles
- » Wall chart
- » Owners manual

MACHINE-DEFINED TRAINING

EPIC SELECTORIZED

DESIGNED TO BE EPIC

Take machine-defined training to the next level with the Freemotion EPIC Selectorized line. Accessible and approachable, this line meets the needs of facilities and users' fitness goals. With lower towers, molded seat design, Line-X® footplates, and contoured counterweights, the EPIC Selectorized line is the result of customer feedback, research, development and pure Freemotion innovation.

CHEST PRESS #ES800

Strengthen and isolate chest muscles with the EPIC Selectorized Chest Press. This machine utilizes natural motion to create a progressive workout that's effective for everyone.

- » *Low Profile Tower Design*
- » *Converging Axis Arms*
- » *Independent Arm Movement*
- » *Natural Range of Motion*

LAT PULLDOWN/HIGH ROW #ES802

The L-shaped handle of the EPIC Selectorized Lat Pulldown/High Row creates multiple grip positions to target different muscle groups in the back.

- » *Independent Arm Movement*
- » *Multiple Handle Positions*
- » *Adjustable Thigh Pads*

LEG EXTENSION #ES801

The EPIC Selectorized Leg Extension isolates quad muscles in three positions.

- » *Low Profile Tower Design*
- » *Multiple Start Positions*
- » *Adjustable Back Pad*
- » *Adjustable Leg Assembly*

LEG CURL #ES803

A wide range of motion puts the focus on strengthening leg muscles. Spring-loaded and counterbalanced, the EPIC Selectorized Leg Curl has a lowered tower height that promotes an open feel.

- » *Low Profile Tower Design*
- » *Multiple Start Positions*
- » *Adjustable Back Pad*
- » *Adjustable Leg Assembly*

EPIC SELECTORIZED

LEG PRESS #ES804

With a wide-open design, the EPIC Selectorized Leg Press works for users of all fitness levels. They can target the upper legs with an arc-shaped movement pattern that fully extends the body.

- » Open Design
- » Multiple Start Positions
- » Platform Adjustment
- » Backrest Adjustment

SHOULDER PRESS #ES807

The EPIC Selectorized Shoulder Press targets shoulder and chest muscles through independent arm movement. Users will enjoy a natural range of motion that's versatile and effective.

- » Low Profile Tower Design
- » Converging Axis Arms
- » Independent Arm Movement
- » Multiple Handle Positions

PEC FLY/REAR DELT #ES806

The EPIC Selectorized Pec Fly/Rear Delt is a freestyle machine that builds strength through natural movement. Designed with a lowered weight stack, the dual function training strengthens back and chest muscles with easy-to-adjust pivoting arms.

- » Low Profile Tower Design
- » Pivoting Arms
- » Independent Arm Movement
- » Multiple Handle Positions

HIP ADDUCTION/ABDUCTION #ES809

The non-restrictive design of the EPIC Selectorized Hip Adduction/Abduction has pivoting pads to create two leg workouts in one machine. Nine different start positions isolate and strengthen inner and outer upper leg muscles, while the lower weight tower adds to your floor space.

- » Low Profile Tower Design
- » Pivoting Thigh Pads
- » Multiple Start Positions
- » Textured Foot Pegs

EPIC SELECTORIZED

BICEPS CURL #ES810

The EPIC Selectorized Biceps Curl has user-defined movement that targets the upper body with a natural range of motion. The easy seat adjustment allows users to create a truly personalized workout.

- » **Low Profile Tower Design**
- » **Unique Handle Design**
- » **Comfortable Arm Pad**
- » **Seat Adjustments**

DIP/CHIN ASSIST #ES812

The EPIC Selectorized Dip/Chin Assist gives users the option of weight-assisted exercise. Curved upper handles allow for a natural grip, whether wide, narrow, pronated or supinated. Textured foot platforms and a weighted bar allow for secure foot placement.

- » **Multi-Position Handles**
- » **Weighted Bar**
- » **Heavy Duty Cable**

TRICEPS EXTENSION #ES811

With an "easy in" adjustment pin, full pad and big wrist stops, it's easier for users to push weight on the EPIC Selectorized Triceps Extension.

- » **Low Profile Tower Design**
- » **Seat Back Adjustment**
- » **Comfortable Arm Pad and Hip Support**
- » **Heavy Duty Cable**

CALF EXTENSION #ES813

The EPIC Selectorized Calf Extension helps users build muscle and mobility used in everyday life.

- » **Low Profile Tower Design**
- » **Seat Adjustments**
- » **Line-X® Coating**
- » **Heavy Duty Cable**

EPIC SELECTORIZED

PRONE LEG CURL #ES814

The EPIC Selectorized Prone Leg Curl enhances strength and muscle with a specialized, contoured arm that supports the forearms and rotating, cylindrical pad to isolate the hamstrings.

- » **Low Profile Tower Design**
- » **Adjustable Leg Assembly**
- » **Contoured Arm Supports**
- » **Heavy Duty Cable**

LATERAL RAISE #ES816

The EPIC Selectorized Lateral Raise builds strength in the shoulders with arms that move independently to create single or dual exercises.

- » **Low Profile Tower Design**
- » **Independent Arm Movement**
- » **Swiveling Handles**
- » **Seat Adjustment**

EPIC SELECTORIZED

BACK EXTENSION #ES815

The EPIC Selectorized Back Extension builds stabilizer muscle strength along the spinal column to improve posture and balance. The lowered tower height creates an open and inviting feel.

- » **Low Profile Tower Design**
- » **Adjustable Back Pad**
- » **Textured Foot Plate**
- » **Footplate Adjustment**

SEATED ROW #ES817

With no fixed cables and an extensive range of motion, the EPIC Selectorized Seated Row works the back, shoulders and arms. The lowered tower height creates an open and inviting feel.

- » **Low Profile Tower Design**
- » **Freegrip™ Handles**
- » **Unilateral Arm Movements**
- » **Adjustable Chest Pad**

TORSO ROTATION #ES818

The EPIC Selectorized Torso Rotation builds core strength, stability and overall balance. With a quick pin adjustment, plush pads and a lower weight tower, this modern gym training piece is easy to use and easy to clean.

- » Low Profile Tower Design
- » Rotating Arm Pad
- » Leg Pads
- » Start Position Adjustment

ABDOMINAL CRUNCH #ES819

Two pivoting points, dense padding and skid-resistant footrests make the EPIC Selectorized Abdominal Crunch stand out. The 4-bar linkage system provides a full range of motion to make the workout smooth.

- » Low Profile Tower Design
- » Contoured Shoulder Pads
- » Pivoting Seat Back
- » Shin Pads

GLUTE #ES820

Standing while working the glute on the EPIC Selectorized Glute builds balance and stability for users' everyday life.

- » Low Profile Tower Design
- » Adjustable Chest Pad
- » Left and Right Leg Adjustment Bar
- » Linear Bearings

SMALL GROUP TRAINING

MAKE SMALL GROUP TRAINING EXPERIENCES MORE PERSONAL

Fitness trends come and go, but small group training will always be here to stay. Participants reap the benefits of a personal trainer with the camaraderie that helps them stay motivated to reach their goals. Freemotion has your facility covered— leading the way in revolutionizing small group training with FitRig™ Team Training.

FITRIG™ TEAM TRAINING

MOVEMENTS IN A 3-D WORLD

Your FitRig™ is the springboard to participants realizing their goals with the help of your expert trainers. FitRig™ Team Training offers fast-paced, total-body, small group classes that utilize Freemotion FitRig™ equipment.

FITRIG™ TEAM TRAINING

FITRIG TEAM TRAINING EXPERIENCE

MAKE THE MOST OF YOUR FITRIG™

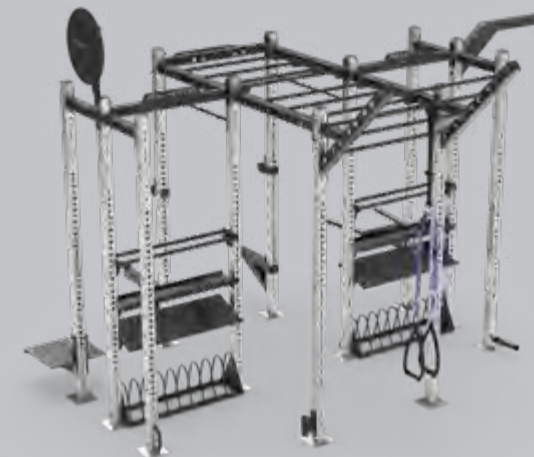

Do you need a clear roadmap to generate revenue and maximize the ROI of your FitRig™? Freemotion offers an educational and experiential solution to help your facility increase revenue with a powerful, engaging functional training class: FitRig™ Team Training.

These 45-minute, fast-paced small group classes target the entire body and are designed to increase power, stability and strength while improving participants' ability to move dynamically in a 3D world. Adding FitRig™ Team Training classes to your facility gives your team the knowledge and tools they need to develop and maintain a successful and profitable small group experience.

ADD FITRIG TEAM TRAINING TO YOUR ORDER TO GIVE YOUR TEAM THE EDUCATION AND SUPPORT THEY NEED TO DEVELOP AND MAINTAIN A SUCCESSFUL AND PROFITABLE SMALL-GROUP EXPERIENCE.

FREEMOTION

EDUCATION

EDUCATION

KNOWLEDGE IS POWER

The fitness industry is constantly evolving to meet the ever-changing needs, expectations and behaviors of today's exercisers. The Freemotion Education Academy exists to equip your facility with the skills, knowledge and mindsets needed to deliver exceptional experiences.

BENEFITS OF FREEMOTION EDUCATION

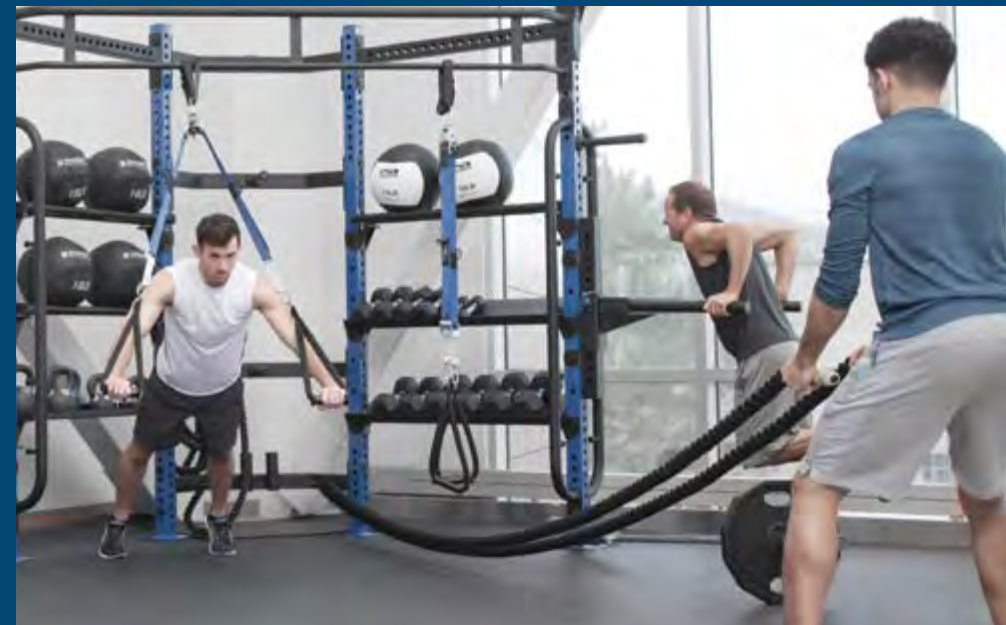

The Freemotion Education Academy builds on, challenges and progresses foundational fitness principles to help expand your team's reach and elevate their expertise, in turn boosting your facility's commercial results. These include:

- 1 | Implementation and integration of Freemotion products and programming.
- 2 | In-person and virtual training courses from Freemotion Master Coaches.
- 3 | Continuing Education Credits (CECs) through NASM and ACE-accredited Freemotion courses.
- 4 | Access to Freemotion Academy courses and continued education opportunities.
- 5 | Ongoing education and programming support from Freemotion Education.

EDUCATION

COURSES WE OFFER

We offer many in-person and virtual courses to support and maximize the Freemotion experience in your facility. With a continually expanding curriculum, Freemotion ensures that your team can deliver world-class experiences at the leading edge of health and fitness. Supercharging engagement and boosting your success starts here.

THE INCLINE TEAM TRAINING COURSE

is a powerful cardio experience that is highly effective in a group setting. Consisting of five to 15 participants, each participant utilizes an Incline Trainer for the entirety of the workout. The trainer's role is to personalize the experience for exercisers of all fitness levels and abilities by motivating, connecting and energizing the group. This results in a challenging, engaging and results-focused cardio workout.

THE FREEMOTION FUNCTIONAL CABLE TRAINING COURSE

is designed for experienced personal trainers looking to enhance their expertise and upgrade their clients' experiences. In this six-hour hands-on learning opportunity, Freemotion Master Coaches will help you learn the Freemotion Movement Pattern Training Approach, the Functional Path to Progression and the Freemotion Coaching Philosophy.

FREEMOTION
SERVICES

SERVICES

FREEMOTION HAS YOUR BACK

The most rewarding journeys are created by those who help you along the way. Freemotion is here to make your business run smoother, better and stronger. From a network of highly trained and responsive technicians to a customer care team who go above and beyond, Freemotion is always here when you need us.

GLOBAL SALES

PERSONALIZED SALES EXPERIENCES

With a robust network of highly experienced, enthusiastic sales consultants and offices located across the world, Freemotion is ready to serve you, wherever you are. We recognize the fundamental importance of regional knowledge, so you will always work with a team that has a strong understanding of your country, area, market and the latest industry trends — providing you with an unbeatable level of personal support; because the path to success is best traveled together.

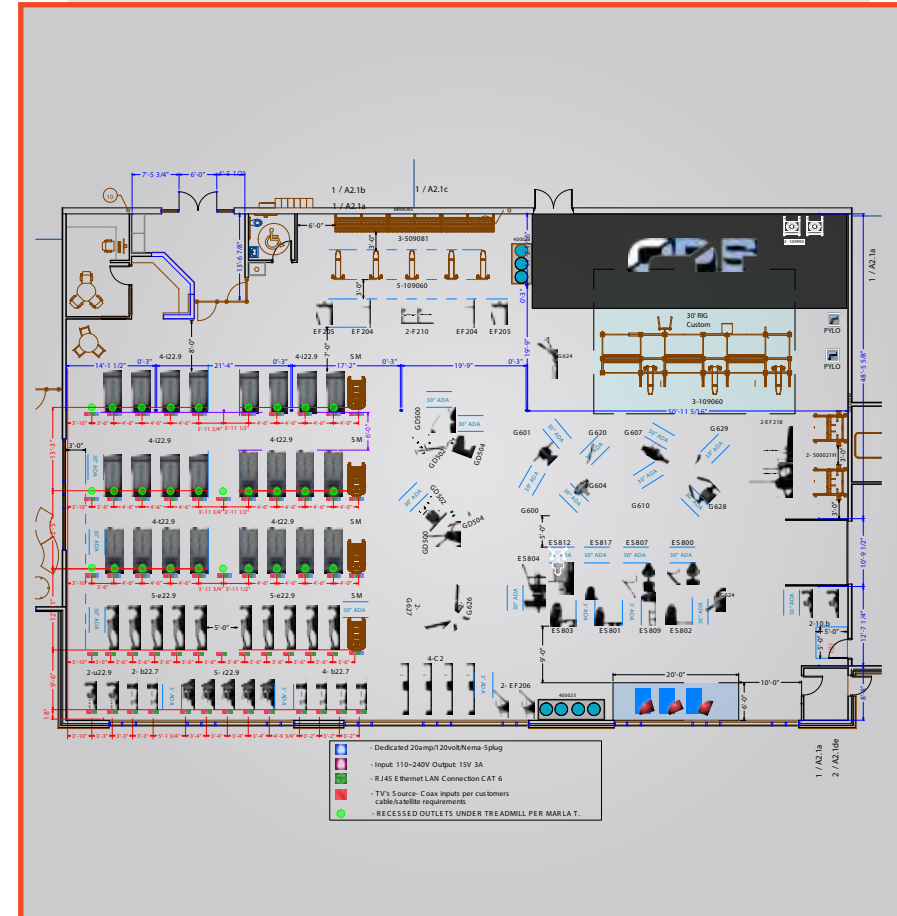

DESIGN

VISUALIZE YOUR PERFECT SPACE

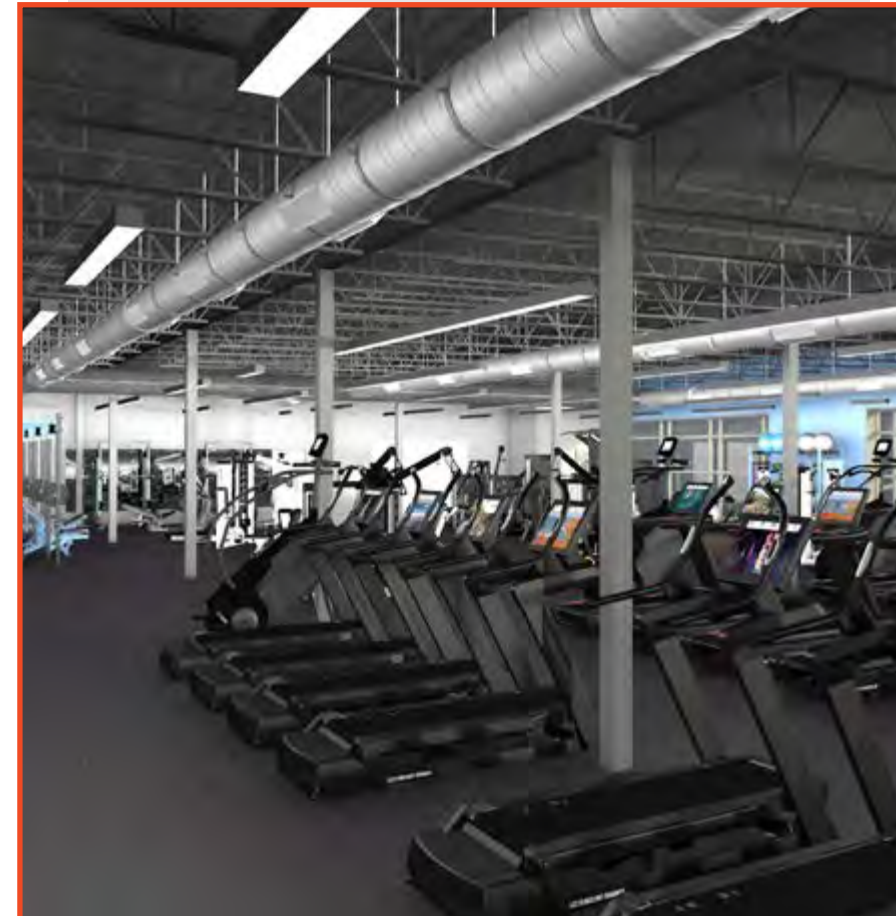

Freemotion makes your vision a reality with renderings designed for your specific project, including ADA-compliant to accommodate wheelchair mobility. For your project, you can receive 2D floor plan renderings and also request 3D visualizations* (depending on the size and scope of your project). Freemotion designs create the perfect workout experience for exercisers and bring your facility to life.

*May incur an additional cost.

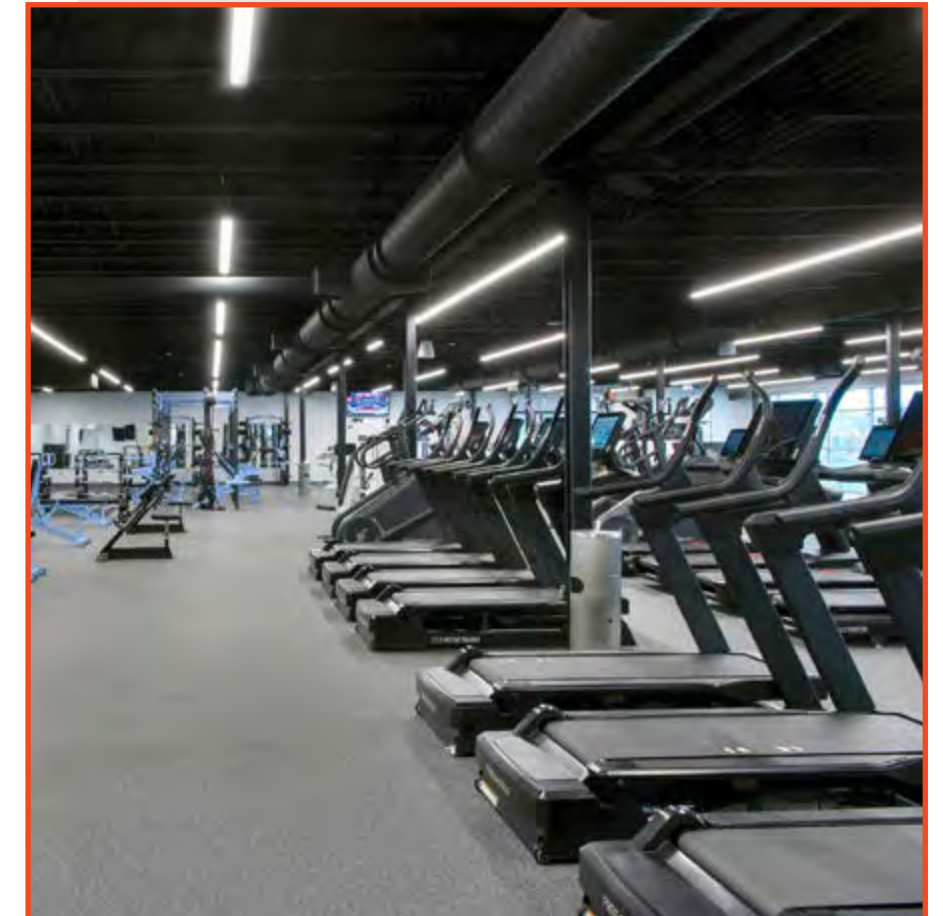

2D DESIGN

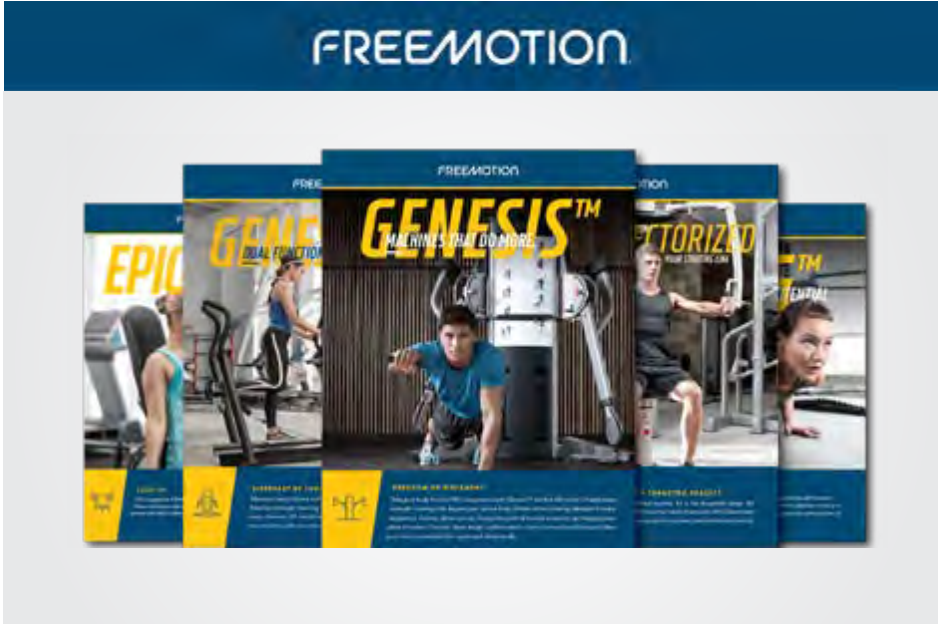

3D DESIGN

ACTUAL FACILITY

MARKETING

DRIVEN TO YOUR SUCCESS

There's more to fitness than the best machines; it also takes the best training, support and marketing. It's about getting people excited to make a change in their lives and inspiring them to show up each day to put in the work. Freemotion Marketing helps build that excitement by offering personalized content and engaging marketing tools.

LEASING & FINANCING*

FROM VISION TO REALITY

Freemotion works with facilities and businesses to bring their dreams to life. Our leasing and financing gets you closer to opening your doors or revitalizing your facility with cutting-edge fitness equipment and technology, creating unique fitness experiences for your exercisers. Freemotion also works with third-party leasing partners, giving you custom finance solutions that work with your timeline and your business plan.

*Only available in the U.S.

DELIVERY & INSTALLATION

READY WHEN YOU ARE

Freemotion Delivery and Installation Teams work with you to safely and correctly get your machines up and running with minimal impact on your facility. Expertly trained and meticulously organized, Freemotion knows that your business is personal, and we treat it that way.

GLOBAL SERVICE & SUPPORT

BETTER TOGETHER

Our success comes from your success. With a global team of customer care representatives and repair technicians who are never more than a phone call away and sales consultants who will always follow up, when you invest in Freemotion, we invest in you.
